Health and Energy
Our Business and Communication schools are among the best in Asia, and our School of Biological Sciences is always at the forefront of Singapore's science advances.

With 5 main schools - The School of Information and Social Sciences, the School of Art, Design and Media and the School of Physical and Mathematical Sciences - and on top, NTU is able to provide a broad education in liberal disciplines, and a choice of research leading to a high education of degree and diploma. Together with its internationally recognized academic staff, NTU offers its students top-quality programmes with a global outlook.

With 100+ degree and diploma courses, 100+ research centres and institutes, and 100+ NTU is able to provide a broad education in liberal disciplines, and a choice of research leading to a high education of degree and diploma. Together with its internationally recognized academic staff, NTU offers its students top-quality programmes with a global outlook.
