

NTU Undergraduate Experience

"...ideals, passion and entrepreneurship are the DNA we are born with in this university..."

Dr Su Guaning, NTU President

At NTU, you have the flexibility of designing your own curriculum. Undergraduates may tailor their own mix of specialisations and minors, plan their pace of study and participate in various programmes such as the Global Immersion Programme.

This liberty empowers you, at a whole new level, to customise your learning adventure to meet your personal goals and career aspirations - all these, while immersing yourself in campus life and its offerings of cultural and social activities.
