UNIVERSITY

I can close a million dollar deal anywhere.

I know I got the best deal at NTU. I learnt to speak the language of global customers, and the experience has deepened my commitment to take the lead and seek new ventures.

At NTU, I experience a whole new way of learning, thinking and living. The innovative cross-disciplinary curriculum, minors and electives make for an enriching education, preparing me for a career in a high-tech world. Campus life in the residence halls and overseas immersion programmes broaden my horizons, and develop leadership skills and readiness for enterprise.

In a vibrant learning environment that advocates self-discovery, I can be me.
