The Intellectual
CREATOR OF THOUGHT, WORD AND IMAGE

Be intellectually prepared for the creative challenges of a fast-paced, high-tech global economy. At NTU, you will receive a stimulating education in the humanities, social sciences, art, design and communication studies. Equip yourself with relevant real-world skills and gain an added technological edge that will put you ahead of your cohort.

Broaden your learning through global immersion and cross-disciplinary studies in science, technology, business and education. Seize the many opportunities for research. Enjoy the best of residential living in an environment that hones leadership skills and encourages independence. Join the league of NTU graduates and leverage the extensive network of well-connected alumni.

Discover a truly enriching learning experience at NTU.

Applications close on 1 April 2007 for Singapore-Cambridge GCE ‘A’ Level graduates.
