I am empowered to succeed in the dynamic global economy by the rigorous curriculum and unique teaching methods at Nanyang Business School (NBS).

My future is bright with NBS, which has a strong heritage of more than fifty years. Ranked the number one Singapore business school and in the top three in Asia*, it offers the region’s leading Accountancy programme which is recognised worldwide. NBS is the only Singapore business school awarded both EQUIS and AACSB accreditations, and one of only five business schools worldwide, outside of the United States, to be awarded the specialised AACSB accreditation in accounting. Living on our vibrant campus has further honed my leadership skills.

With NTU’s emphasis on multi- and cross-disciplinary approaches and international exposure through initiatives such as the Global Immersion Programme, I have the competitive edge to succeed in the global arena.

With an NTU degree, I take the lead.
