

IDEAS TO COMMERCIALISATION

MOVING INNOVATION TO THE MARKET

Programme Overview

While Universities are sources of innovation, there is still a gap between its research and development activities and commercial product development. This event aims to help bridge this gap by fostering a closer relationship with industry through discussions on models of university-industry collaborations and working with industry to commercialise technologies. There will be presentations of NTU technologies with commercial potential and networking opportunities to explore possible licensing and co-development of NTU technologies.

Date & Time
29th Sept 2005
9.00a.m.-5.00p.m.

Venue
Suntec City Convention
& Exhibition Centre
Conference Room 326

Registration Fees:
Free
