## EndNote X4

### Steps to unzipping the folder

It is important to extract the files in the EndNote X4 package before installing the software. Failure to do so will result in being asked for Product License Key.

This document will show the two different methods to unzipping the EndNote X4 package before installation of software.

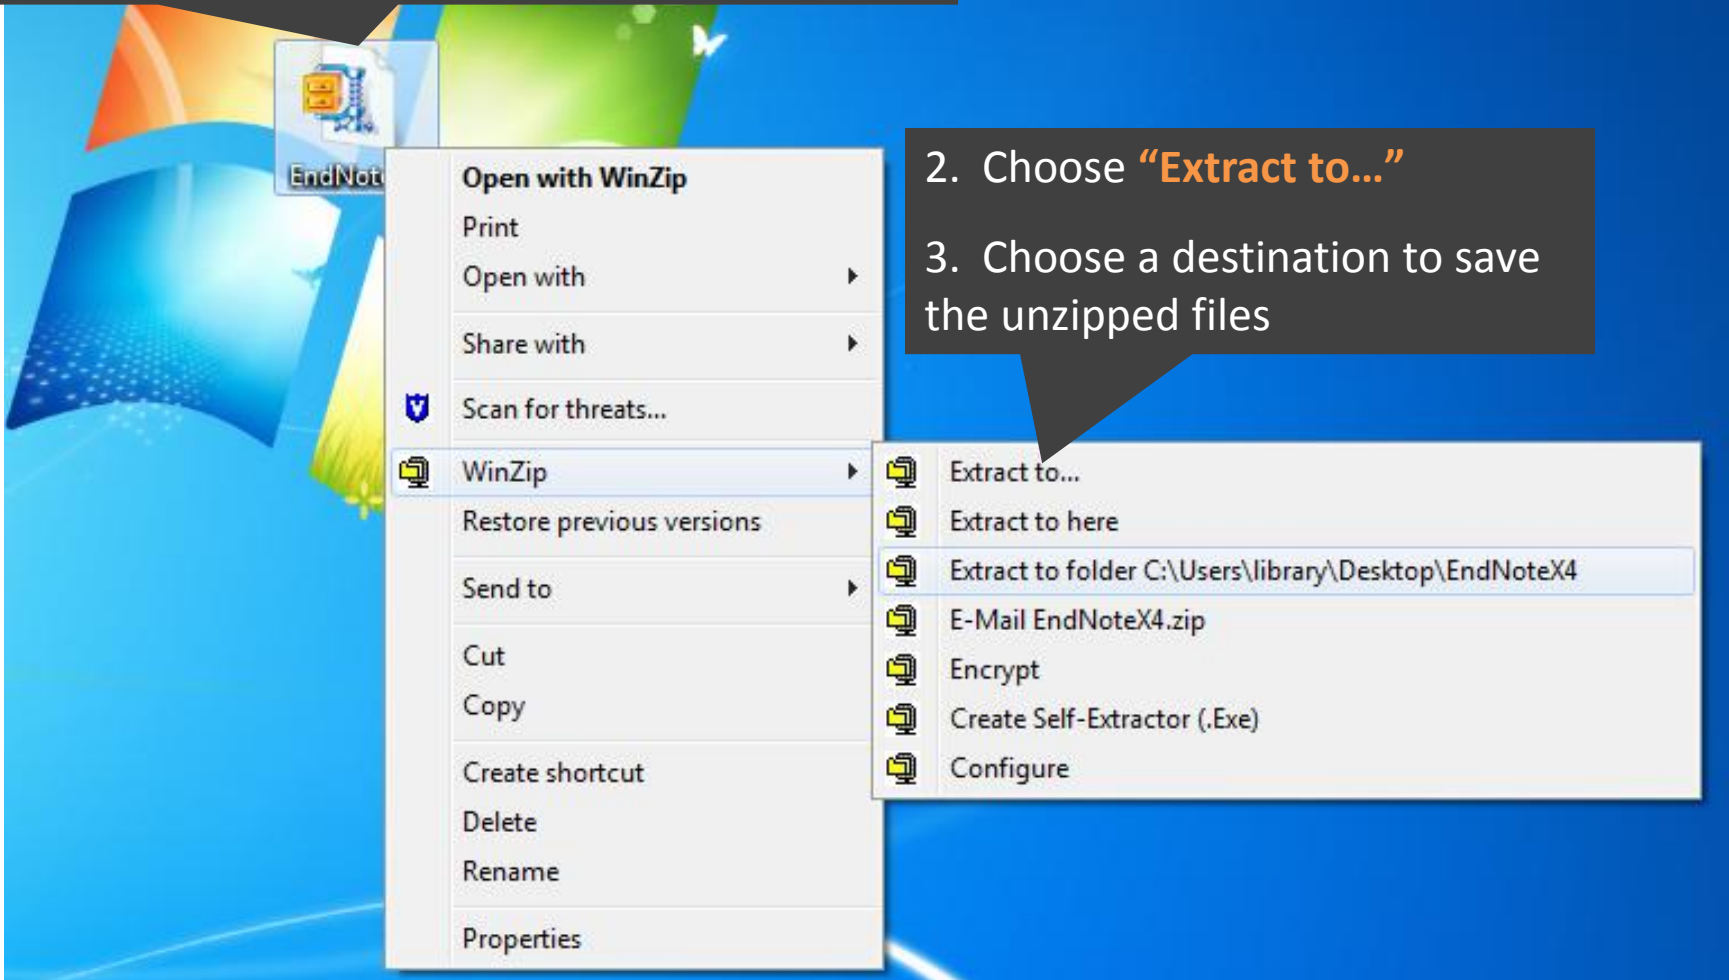

**Method 1: Using WinZip software**

**Method 2: Using “Extract all” function**

This guide aims to provide guidance for the installation of EndNote X4 software. The methods shown may differ from actual scenarios due to different operating systems (XP, Vista or Windows 7). For further assistance on EndNote, please email NTU Library Instructional Services Division at [instructionalservices@ntu.edu.sg](mailto:instructionalservices@ntu.edu.sg)

# Method 1: Using WinZip software

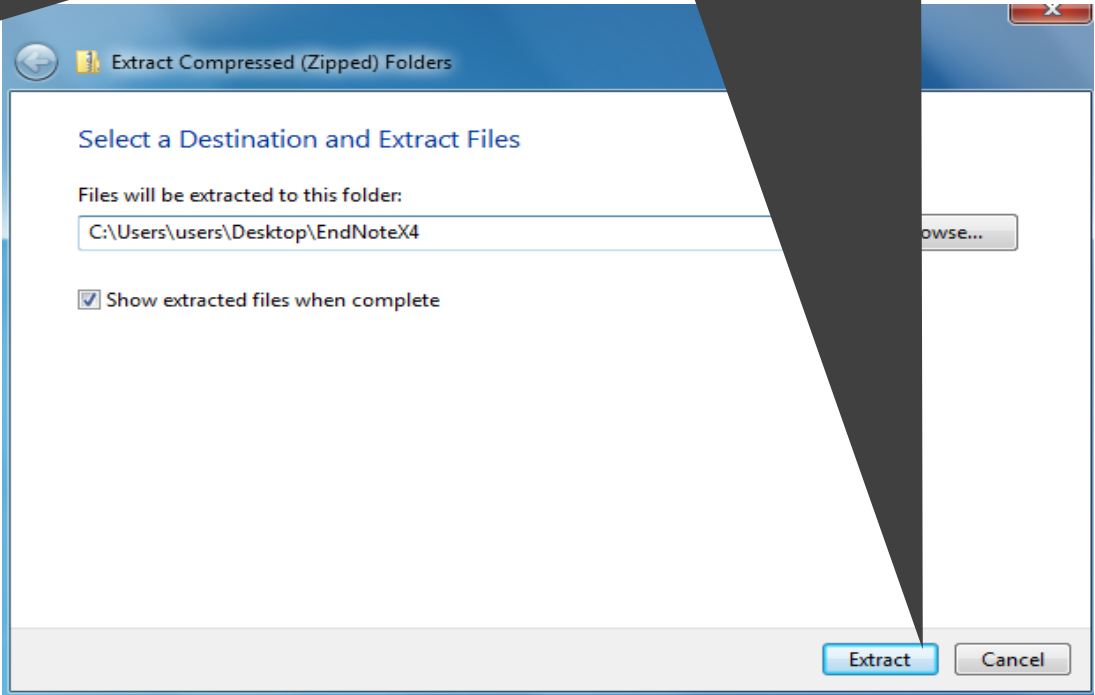

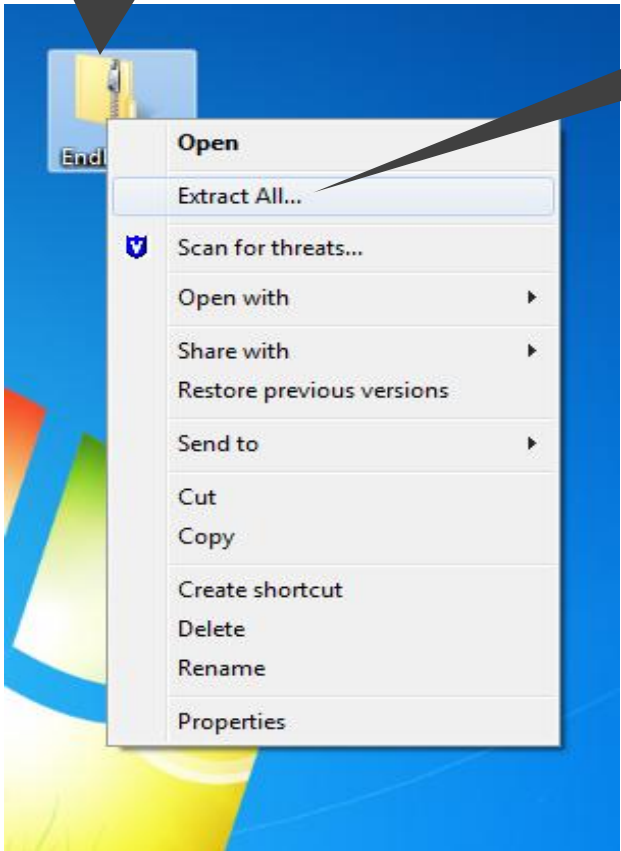

1. Right click on "EndNoteX4.zip" which you have just downloaded

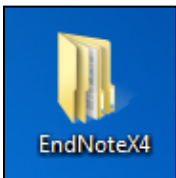

# Method 2: using “Extract All” option

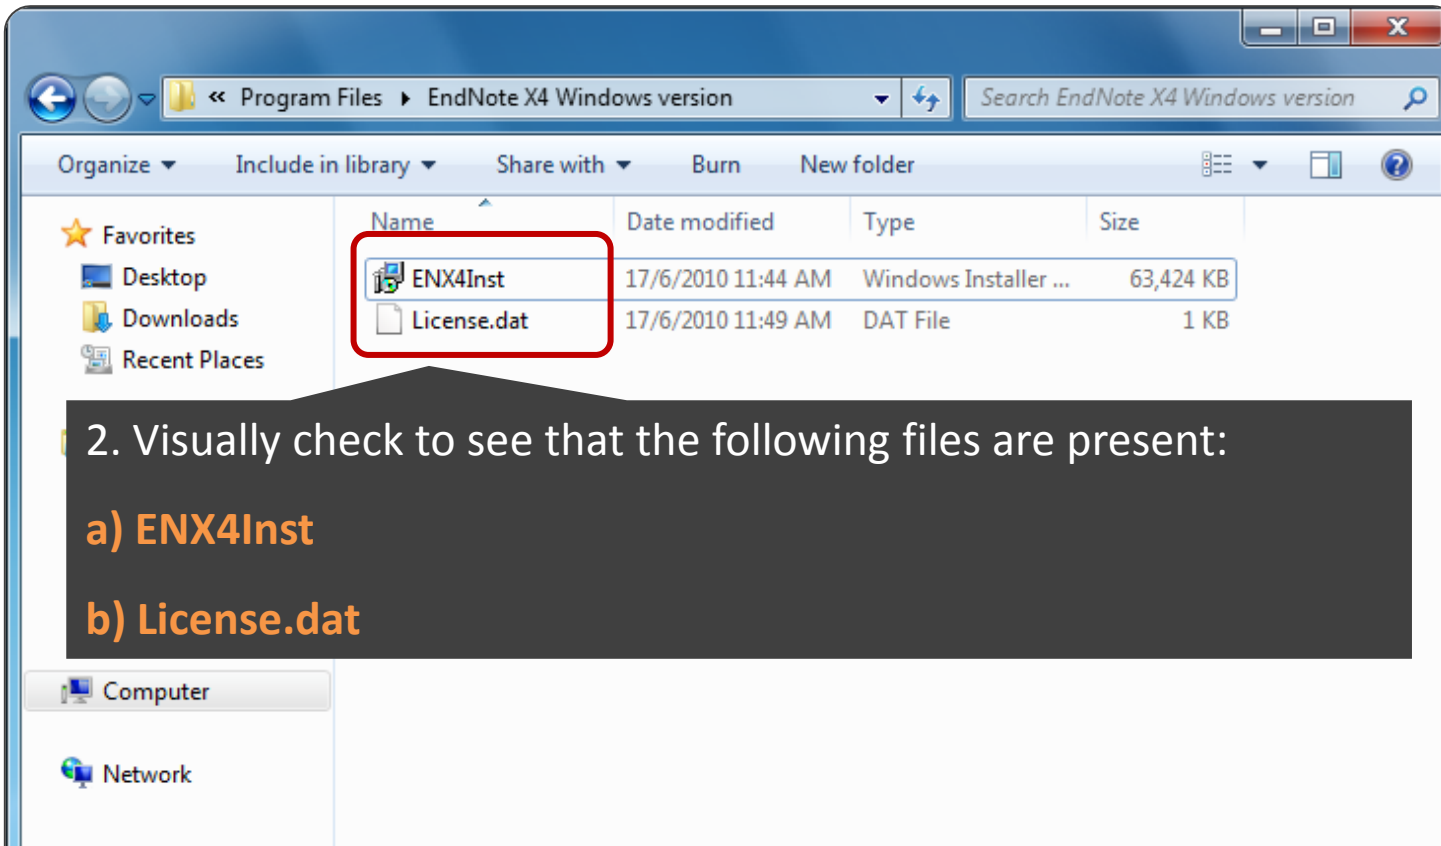

1. Right click on “EndNoteX4.zip” which you have just downloaded

2. Choose “Extract all...”  
3. Choose a destination to save the extracted files  
4. Click on “Extract”

1. After unzipping “EndNote X4.zip”, open the **EndNote X4 folder** by double clicking it.

You have successfully unzipped the files for EndNote X4.

If you wish to install EndNote X4 onto your computer, please follow the steps in **“EndNote X4: Guide to Custom Installation”**.
