Vision & Mission

A great global university founded on science and technology, nurturing leaders through research and a broad education in diverse disciplines
ABOUT NTU SINGAPORE

Profile

- Fastest-rising university in the world’s top 50; ranked 12th in the world*
- Ranked 1st among the world’s best young universities for 5 consecutive years (2014–2018)#
- World’s fastest-rising young university~
- Research-intensive with lion’s share of competitive funding in Singapore (about S$5.34b from 2005 to 2017)
- Leads top Asian universities in normalised research citation impact+
- Ranked the top global university for AI research citations (2012–16)>
- Ranked 9th for research output/quality in Asia-Pacific (8th for Chemistry and 7th for Physical Sciences)®
- About S$2.1b for sustainability research from FY2005 to FY2017
- S$578m in competitive research grants in FY2017/18
- Strengths in engineering, science, business, humanities, arts, social sciences, education, international studies and medicine
- Joint medical school with Imperial College London
- 6th most-cited university for engineering research output
- Joint labs on campus with leading multinationals such as Alibaba, Rolls-Royce, BMW, Lockheed Martin and Johnson Matthey
- Combined cash funding (including from NTU) of S$232.3m for 7 corporate labs, namely Rolls-Royce@NTU Corporate Lab, ST Engineering-NTU Corporate Lab, SMRT-NTU Smart Urban Rail Corporate Lab, Delta-NTU Corporate Lab, Singtel Cognitive and Artificial Intelligence Lab for Enterprises, S3-NTU Corporate Lab and HP-NTU Digital Manufacturing Corporate Lab
- Main campus in Jurong named one of the Top 15 most beautiful and Top 10 most photogenic in the world (Travel + Leisure and QS); medical campus in Novena, Singapore’s healthcare district
- One of the world’s greenest campuses with 57 Green Mark-certified (equivalent to LEED-certified) building projects, of which 95% are Green Mark Platinum
- 26 halls of residence housing more than 13,000 students
- 27 joint and dual PhD programmes with overseas universities
- About 23,665 undergraduates and 8,022 graduate students from about 82 countries
- About 5,251 faculty and researchers from about 81 countries
- Approximately 230,322 university alumni representing 156 nationalities

Established in 1991, Nanyang Technological University, Singapore (NTU Singapore) has roots that go back to 1981 when its predecessor institution, Nanyang Technological Institute, was set up on the grounds of the former Nanyang University as a teaching university.

Today, NTU is a research-intensive institution recognised globally for its impactful research, education and innovation, with strengths in many areas shaping the 4th Industrial Revolution. The NTU Smart Campus is a living test bed for Singapore’s Smart Nation initiative and a model of sustainable living.

Joint medical school with Imperial College London

A new model for medical schools, the Lee Kong Chian School of Medicine combines NTU’s core strengths in engineering and business with Imperial College London’s world-renowned medical expertise. The School prepares the brightest minds for the demands of 21st-century healthcare and has introduced innovations to medical education. At its inception, the School received philanthropic support of about S$400m.

A rich heritage: National monuments on campus

Gazetted as a national monument in 1998 and now housing the Chinese Heritage Centre for research on Chinese overseas, the former Nanyang University Administration Building overlooks the historical Yunnan Garden.

The Nanyang University Memorial and original Nanyang University Arch were also declared national monuments of Singapore in 1998.
Global University Leaders Forum
NTU is a member of the Global University Leaders Forum, an intellectual community within the World Economic Forum in Davos. Through its involvement, NTU helps to set the agenda for discussions around the future of higher education, innovation and research with other leading universities in the world.

Global Alliance of Technological Universities
NTU is one of the seven founding members of the Global Alliance of Technological Universities (GlobalTech), a network of top technological universities united in addressing global issues through leading-edge science and technology.

- Carnegie Mellon University
- Imperial College London
- Indian Institute of Technology Bombay
- Nanyang Technological University
- Shanghai Jiao Tong University
- Technische Universität München
- University of New South Wales

Deep links with Asia, global connections
NTU’s international outreach is broad and strong and includes more than 500 academic and research partnerships with institutions across the United States, Europe, the Asia-Pacific and beyond.

Governance
The 17-member NTU Board of Trustees is a key pillar of university governance and sets the broad strategic directions for the University. The President is the University’s Chief Executive Officer. Forming the core leadership team of the University together with the President are four vice presidents, namely, the Provost and Vice President (Academic), Vice President (Research), Vice President (Administration) and Vice President (Alumni & Advancement).

Chancellor
The President of the Republic of Singapore is the Chancellor of the University.

Colleges
College of Engineering
The largest engineering college in the world with six schools focused on technology and innovation; 6th most-cited university for engineering research output according to Essential Science Indicators; ranked 5th globally and 1st in Asia for Engineering and Technology by QS World University Rankings; ranked 2nd globally and 1st in Asia by Academic Ranking of World Universities; home to Singapore’s preferred engineering programme for top A-level graduates.

- School of Chemical and Biomedical Engineering
- School of Civil and Environmental Engineering
- School of Computer Science and Engineering
- School of Electrical and Electronic Engineering
- School of Materials Science and Engineering
- School of Mechanical and Aerospace Engineering

College of Science
Award-winning faculty and world-class laboratories; ranked 2nd globally and 1st in Asia for Chemistry by US News and World Report; ranked 18th in the world for Physical Sciences by Nature Index; offers Singapore’s first double degree programme in Biomedical Sciences and Traditional Chinese Medicine in partnership with Beijing University of Chinese Medicine.

- Asian School of the Environment
- School of Biological Sciences
- School of Physical and Mathematical Sciences
Nanyang Business School
(College of Business)
Consistently ranked among the world’s premier business schools, with an MBA programme that is rated among Asia’s top MBA programmes and the best in Singapore; first business school in Singapore, and the fifth in the Asia-Pacific, to be accredited by both the European Quality Improvement System and Association to Advance Collegiate Schools of Business.

College of Humanities, Arts, and Social Sciences
Home to the best school in Asia for communication and media (QS World University Rankings and Academic Ranking of World Universities); fast-growing humanities and social sciences schools with special strengths in research on Asia; and Singapore’s first professional art school offering degree courses in art, design and interactive digital media.

Schools:
• School of Art, Design and Media
• School of Humanities
• School of Social Sciences
• Wee Kim Wee School of Communication and Information

Graduate College
Drives excellence in graduate education at NTU, covering research, interdisciplinary and coursework programmes; promotes inter-school collaboration and establishes joint-degree and exchange programmes through external partnerships.

Autonomous institutes
National Institute of Education
Singapore’s main teacher-training institute that provides educational consultancy to countries from Abu Dhabi to Vietnam; ranked 1st in Asia (Academic Ranking of World Universities) and 3rd in Asia (QS World University Rankings) for education.

S Rajaratnam School of International Studies
An autonomous graduate institution of NTU and a world authority on strategic and international affairs; its Institute of Defence and Strategic Studies is ranked the top think tank in Southeast Asia and the Pacific, and placed among the world’s top 35 university-affiliated think tanks in the 2017 Global Go To Think Tank Index Report.

Lee Kong Chian School of Medicine
Combines NTU’s core strengths in engineering and business with Imperial College London’s world-renowned medical expertise; first doctors graduated in 2018 with a Bachelor of Medicine and Bachelor of Surgery (MBBS), awarded jointly by NTU and Imperial College London.

Earth Observatory of Singapore
Established in 2008 with S$150m in state funding; a leading resource centre in understanding environmental threats and the first Asian organisation to receive a S$5m endowment from the global AXA Research Fund.

Singapore Centre for Environmental Life Sciences Engineering
Set up with S$120m in government funding to harness microbial biofilms for water and environmental sustainability.

Wealth Management Institute
A centre of excellence for wealth management education and research in the region and beyond.

Chinese Heritage Centre
Advances knowledge and understanding of ethnic Chinese communities around the world, with a research centre, museum and library housed in the historic Administration Building of the former Nanyang University.
Recruiting the best

Exceptional young international faculty from diverse disciplines are drawn into the University’s academic and research enterprise through the Nanyang Assistant Professorship scheme, which awards grants of up to S$1m over three years for cutting-edge research, as well as the prospect of tenure-track appointments.

Outstanding young researchers may also apply for prestigious fellowships in science and technology under a scheme promoted by the Singapore National Research Foundation, which could lead to an offer of a faculty position at NTU and research funding of up to S$3m over five years.

NTU is committed to attracting the brightest post-doctorates and PhD students locally and globally. Quality graduate programmes, including joint PhD programmes with top overseas universities, and attractive scholarships, such as the Nanyang President’s Graduate Scholarship, NTU Research Scholarship and Singapore International Graduate Award, help draw the very best research talent from all over the world.

The NTU Presidential Postdoctoral Fellowship (PPF), launched in 2018, attracts outstanding early career scholars in any discipline to begin their academic careers at NTU. The inaugural call drew 540 applications from outstanding researchers worldwide competing for 16 fellowships. This postdoctoral appointment offers a pathway to an academic appointment and the chance to be mentored by top academics at NTU.

Residential community

The Yunnan Garden campus provides a serene backdrop to 26 halls of residence housing more than 13,000 students and a variety of lodging options, including accommodation for about 1,800 graduate students. All undergraduates are guaranteed a place in a hall of residence for their first two years at NTU.

About 50% of full-time undergraduates and 85% of international undergraduates live on campus. Some 758 housing units are set aside for international academics and staff members.

A town called NTU

• NTU has the largest on-campus residence infrastructure in Singapore.
• Under a Campus Master Plan, new learning, living, research and recreational spaces have been created to foster multidisciplinary pursuits and a collegiate culture. Two large learning hubs, centerpieces of flipped classroom learning at NTU, and a lifestyle hub, the North Spine Plaza, are part of this transformed landscape.
• About 47% of NTU’s full-time student population and 59% of faculty call NTU home.

RESEARCH

NTU performs cutting-edge research through various strategic national and international research programmes. The University hosts two out of five national Research Centres of Excellence (RCEs) – the Earth Observatory of Singapore and Singapore Centre for Environmental Life Sciences Engineering, both conducting research aligned with the long-term strategic interests of Singapore. NTU is also the lead local partner in 7 out of 9 national CREATE centres, set up with elite international universities.

Research in NTU is carried out within and across the colleges/schools and RCEs, supported by 15 university-level research institutes with 16 research centres under the institutes, 7 National Research Foundation (NRF) Corporate Labs, 80 research centres under the colleges/schools, and 36 joint centres with external organisations.

Key research centres and institutes

• Active Living for the ElderLY (LILY)
• Advanced Remanufacturing & Technology Centre (ARTC)
• Ageing Research Institute for Society and Education (ARISE)
• Centre for Research and Development in Learning (CRADLE)
• Complexity Institute
• Cyber Security Research Centre @ NTU (CYSREN)
• Data Science and Artificial Intelligence Research Centre @ NTU (DISSAIR)
• Delta-NTU Corporate Lab for Cyber-Physical Systems
• Earth Observatory of Singapore
• Energy Research Institute @ NTU
• HP-NTU Digital Manufacturing Corporate Lab
• Institute for Media Innovation
• Institute of Catastrophe Risk Management
• Institute on Asian Consumer Insight
• Nanyang Environment & Water Research Institute
• Nanyang Institute of Structural Biology
• NTU Institute for Health Technologies (HealthTech NTU)
• NTU Institute of Science and Technology for Humanity (NISTH)
• NTU Integrated Medical, Biological and Environmental Life Sciences (NIMBELS) Institute
• NTU-BMW Future Mobility Research Lab
• Rolls-Royce @ NTU Corporate Lab
• Singapore Centre for 3D Printing
• Singapore Centre for Environmental Life Sciences Engineering
• Singtel Cognitive and Artificial Intelligence Lab for Enterprises @ NTU
• SJ-NTU Corporate Lab
• Skin Research Institute of Singapore
• SMRT-NTU Smart Urban Rail Corporate Lab
• ST Engineering-NTU Corporate Lab
• The Photonics Institute
Funding success
From 2005 to 2017, NTU won about S$5.34b in competitive research funding. In FY17, the most significant research grant obtained was S$50 million from the government for the Earth Observatory of Singapore.

Preparing for the 4th Industrial Revolution
NTU is home to a critical mass of talent, resources and infrastructure in the key areas shaping the 4th Industrial Revolution.

The NTU Institute of Science and Technology for Humanity (NISTH) was established in 2018 as a university-wide effort to propel research and public discourse on the contemporary impact of technology on society.

The Institute champions interdisciplinary research on science and technology studies, and brings together industry, government, academia and non-profit organisations to develop ideas and concepts for the prudent and ethical development of technology for the betterment of the human condition.

NISTH adopts a thematic approach that cuts across broad subject areas such as in science, technology, business, medicine, the humanities, arts and social sciences. It will initially focus on three main thrusts: Responsible Innovation, Governance and Leadership in the Age of the Fourth Industrial Revolution, and Emerging Urban Asia.

Some of NTU’s international academic partners

Europe
- CEA: French Alternative Energies and Atomic Energy Commission
- CNRS - Centre National de la Recherche Scientifique
- ETH - Eidgenössische Technische Hochschule Zürich
- Fraunhofer-Gesellschaft
- Imperial College London
- Karolinska Institute
- King’s College London
- Medical University Vienna
- Technical University of Denmark
- Technische Universität München
- TNO (The Netherlands Organisation for applied scientific research)
- Université Grenoble Alpes
- University College London
- University of Bristol
- University of Cambridge
- University of Edinburgh
- Sorbonne University
- University of Southampton

North America
- California Institute of Technology
- Carnegie Mellon University
- Cornell University
- Georgia Institute of Technology
- Massachusetts Institute of Technology
- Northwestern University
- University of British Columbia
- University of California, Berkeley
- University of North Carolina at Chapel Hill

Asia and beyond
- Australian National University
- Chinese Academy of Sciences
- Fudan University
- Hebrew University of Jerusalem
- Hong Kong University of Science and Technology
- Indian Institute of Technology Bombay
- Korea Advanced Institute of Science and Technology
- Kyoto University
- National Taiwan University
- Peking University
- Seoul National University
- Shanghai Jiao Tong University
- Technion-Israel Institute of Technology
- The University of Hong Kong
- Tokyo Institute of Technology
- Tsinghua University
- University of New South Wales
- University of Tokyo
- Zhejiang University
Creating excellence
NTU has established a strong presence in CREATE (Campus for Research Excellence and Technological Enterprise), an initiative of Singapore’s National Research Foundation to foster ties between elite universities and Singapore-based institutions.

Berkeley Education Alliance for Research in Singapore (BEARS)
A tie-up between NTU and University of California, Berkeley, to enhance the efficiency of buildings in the tropics through Building Efficiency and Sustainability in the Tropics (SinBerBEST) and Singapore-Berkeley Research Initiative for Sustainable Energy (SinBeRISE).

Cambridge Centre for Advanced Research in Energy Efficiency in Singapore (CARES)
A partnership with the University of Cambridge to help minimise the carbon footprint of industrial-scale chemical processes.

Nanomaterials for Energy and Water Management (NEW)
A CREATE alliance focused on using nanomaterials to improve energy and water management technologies.

Singapore–ETH Centre for Global Environmental Sustainability (SEC)
Spearheads research in sustainable design, planning and construction to meet urban challenges, through the Future Cities Laboratory (FCL) and Future Resilient Systems (FRS).

Singapore–MIT Alliance for Research and Technology (SMART)
MIT’s largest international research programme involving NTU researchers, focused on solving societal problems through interdisciplinary research.

Singapore–Technion Alliance for Research and Technology (START)
A collaboration to advance the field of cardiac restoration therapy.

Technische Universität München (TUM) CREATE
Set up by NTU and Technische Universität München to develop sustainable transport solutions, including electric cars for Asian cities.
Strong links with industry
NTU has a long record of cooperation with industry and is a partner of choice for leading commercial organisations and national research institutions.

Strategic priority areas: Peaks of research excellence
Interdisciplinary areas of research that leverage NTU’s existing strengths and address issues of national and global relevance

1. Sustainable Earth
Conserve, Transform, Recycle
- Water
- Environment
- Resources
- Energy

2. Global Asia
Understanding, Engagement, Growth
- Language
- Arts
- Culture
- Communities
- Commerce

3. Secure Community
Resilience, Adaptation, Protection
- Economic
- Infrastructure
- Defence
- Resources
- Social harmony

4. Healthy Society
Healthy Living, Active Ageing
- Metabolic disease
- Dermatology & skin biology
- Neuroscience & mental health
- Infection & immunity
- Medical technology
- Public & global health

5. Future Learning
Understanding, Learning, Teaching
- Neurosciences
- Psychology
- Pedagogy
- Technology-enabler

Strategic priority areas: Strengths and focus clusters
NTU’s in-depth disciplinary strengths & established competencies
- Aeronautics & space
- Applied discrete mathematics – coding, crypto & game theory
- Computational science, engineering & data analytics
- Genomics
- Interactive digital media
- Language & cultural diversity
- Manufacturing & remanufacturing
- Nano-medicine
- Photonics
- Structural biology
- Synthetic organic chemistry

Strategic priority areas: Aspirational and emerging areas
New frontiers of research with the potential to transform the world and meet national and global needs and which NTU can build capacity in
- Complexity science
- Digital humanities & social data analytics
- Ecology
- Food science & technology
- Man-machine interface
- Phenomics
- Plant science
- Quantum physics & quantum information
- Synthetic biology & biomimicry
- Urban spaces
UNDERGRADUATE EDUCATION

NTU offers 35 single degree programmes. Students can also choose from 15 double degree programmes, 1 integrated programme and 11 special programmes.

**NTU Education**, a strategic blueprint for undergraduate education, supports how students learn and provides them with opportunities to develop skills that will enable them to face the future with optimism and confidence. It caters to new ways of learning and embeds the latest teaching practices, including the use of flipped classrooms for interactive and team-based learning, as well as residential education at the NTU halls of residence.

NTU is the world’s first university to allow credits from Massive Open Online Courses (MOOCs) hosted on Coursera to be used to fulfil degree requirements. Almost 12,000 NTU students have completed MOOCs with credit transfer, while more than 12,000 non-NTU students have completed and passed NTU’s MOOCs.

Bringing together top professors, the Teaching Excellence Academy fosters research to produce innovations that improve learning outcomes. The Centre for Research and Development in Learning at NTU is also advancing best practices in tertiary learning.

**NTU Education includes:**

**University Scholars Programme (USP)**
A challenging multidisciplinary academic programme for the brightest students; offers a range of creative learning opportunities and fieldwork in unique destinations as well as an overseas semester at institutions such as the University of Pennsylvania and King’s College London.

**Renaissance Engineering Programme (REP)**
A fully-residential programme that bridges engineering, business and humanities to prepare students for leadership roles in interdisciplinary teams; students graduate with a Bachelor of Engineering Science degree and an MSc in Technology Management in 4.5 years; includes a full year of studies at Imperial College London, University of California (Berkeley), Northwestern University or University of British Columbia, as well as access to technology hubs in these regions.
CN Yang Scholars Programme  
Nurtures future leaders at the interface of science and engineering, with a focus on technological innovation and scientific communication; accelerated PhD track.

Undergraduate Research Experience on CAMpus (URECA)  
For students with a passion for research; gives access to more than 1,200 research projects campus-wide; students work independently under the guidance of a professor.

Global Education and Mobility (GEM)  
NTU offers enriching student mobility programmes with more than 330 partner universities in close to 40 countries through its Global Education and Mobility (GEM) initiatives such as GEM Explorer and GEM Discoverer.

- **GEM Explorer** enables students to take courses or conduct research in an overseas partner university for a full semester while exploring a new country and culture.

- **GEM Discoverer** offers various programmes (ranging from 2 to 8 weeks) that place students globally for summer studies, business/cultural executive programmes and language training. All programmes are credit-bearing with the objective of enhancing students’ cross-cultural intelligence and employability.

Currently, more than 6 in 10 NTU students participate in the University’s overseas immersion programmes. By 2020, 8 in 10 students are expected to benefit from these programmes. For more information on NTU’s GEM programmes, please refer to [http://global.ntu.edu.sg](http://global.ntu.edu.sg).

A range of assistance schemes is available to help students defray the cost of their overseas education.

---

**GRADUATE EDUCATION**  
NTU’s graduate academic and research programmes, a number of which are ranked among the best globally, cater to more than 8,000 students from Singapore and around the world.

NTU’s network of global partners for joint/dual PhD programmes has increased over the years through the establishment of new research collaborations with internationally renowned universities. NTU currently has 27 joint/dual PhD degree programmes with overseas partners.

The NTU Graduate College, headed by a Dean, provides strategic oversight and academic leadership on all graduate education matters in the University.

**EXECUTIVE AND CONTINUING EDUCATION**  
The Centre for Professional and Continuing Education (PaCE) consolidates continuing education and training capabilities and expertise within the University, in line with the Singapore government’s emphasis on advancing adult education and professional development for Singapore’s workforce to better meet future challenges.

PaCE leverages technology to enrich the lifelong learning experience of adult learners, including the University’s alumni, making it easier for them to take charge of their own continuing education.

Besides the programmes offered by PaCE, customised executive training programmes are also conducted by the Nanyang Business School, College of Engineering, College of Humanities, Arts, and Social Sciences, Nanyang Centre for Public Administration and Confucius Institute. 258 programmes were conducted in AY2016-17, and 245 programmes in AY2017-18. These programmes attracted approximately 5,781 and 4,984 participants respectively.
STUDENTS
Admissions
NTU welcomes applications from qualified individuals all over the world. Please visit http://admissions.ntu.edu.sg for admission details and contacts.

1Others include the Interdisciplinary Graduate School, Nanyang Technopreneurship Centre and S Rajaratnam School of International Studies
2There are 852 part-time undergraduate students, a total of 586 graduate research and 2,252 coursework students take part-time programmes

Figures are correct as at 10 Sep 2018

Student life
More than 100 student organisations in NTU

Student services
- Psychological and professional counselling
- Career services
- Sports and recreation
- Student clubs and communities
- Health care
- Medical and insurance schemes
- Internal shuttle bus services
- Immigration
- Student jobs
- Accessible education services (for students with special needs)
- One Stop @ SAC (Student Activities Centre)

More information on these student services can be found at:

*Figures exclude adjunct faculty
ALUMNI
• 230,322 university alumni representing 156 nationalities

• 50 overseas alumni associations: Australia, Brunei, Cambodia, China (Anhui, Beijing, Chongqing, Fujian, Gansu, Guangdong, Guangxi, Guizhou, Hainan, Hebei, Heilongjiang, Henan, Hong Kong SAR, Hubei, Hunan, Inner Mongolia, Jiangsu, Jiangxi, Jilin, Liaoning, Ningxia-Qinghai-Xizang, Shanxi, Shaanxi, Shandong, Shanghai, Sichuan, Tianjin, Xinjiang, Yunnan and Zhejiang), Europe, Gulf Cooperation Council, India (Northern, Central and Southern), Indonesia, Japan, Malaysia, Myanmar, Philippines, Taiwan, Thailand, United Kingdom, United States of America (USA-East and USA-West) and Vietnam (Hanoi and Ho Chi Minh City)

LYON, OUR MASCOT
“Lyon the lion” symbolises the University’s values of strength, courage and fearlessness. As the embodiment of the NTU spirit, it not only brings the University community together, but also inspires student teams to give their best performance at inter-varsity and other competitions. Designed by an NTU student, it made its debut in August 2013.

THE NTU FLOWER
*Dendrobium Nanyang* is a pristine white orchid with a burst of purple at the heart of the bloom, signifying pure energy and a caring heart. The hybrid was created by students and teachers of Temasek Primary School as part of an orchid hybridisation programme developed at NTU’s National Institute of Education. The exquisite white petals represent the qualities that embody the university spirit – passion, tenacity, fortitude, leadership, innovation and entrepreneurship.
