Gentle reminder

- Please mute microphone when facilitator is presenting.
- Do type in any questions via the Chat Box.
- One voice at a time.
- Please do a quick intro when speaking (e.g. “I’m Emma from NJC and I have a question”)
Learning Outcomes

At the end of the session, you will be able to

• Use OneSearch to find print and e-materials
• Get an overview of databases and other eresources at the Library
NTU Library @ Yunnan Garden Campus

North Spine

- Lee Wee Nam Library

Lee Wei Nam Library
Facilities

• Wifi in Library:
  o Login via NTU network password

• Services
  o Approach Service Desk to borrow items
  o Self-service printing, photocopying & scanning using cashless modes of payment (NETS or EZLink card)
  o Fines payment @Lee Wee Nam Library & Chinese Library
Library homepage

http://www.ntu.edu.sg/library

- Check your library account
- Databases, ejournals, ebooks, NTU research papers
Borrowing privileges

- **Library card** = School EZLink Smartcard
- **Check My Account**
  - NTU/NIE Users
  - Username: NTU network username
  - Password: NTU network password
- **Loan limit**: 20 items
- **Duration**: 28 days
- **Renewals**: 6 times
- **Reserves**: 2 hours ($0.50 per hour or part thereof)
Book reservation

How to reserve print books

1. Search for the book using the library's search bar.
2. Sign in using your NTU network ID to access complete information.
3. Click on the book to see more details and place a hold.
4. Request a hold and select the pickup location (e.g., Chinese Library).

Service unavailable due to temporary Library closure
Search

• You can search for books, articles, and other publications in printed or electronic form – all in one single search.
Search

Ebooks or online materials will be displayed in records retrieved.
1 Introduction

Singapore is a small island in South-East Asia, just off the southern tip of the Malay peninsular, a little over one degree north of the equator. It has a total area of about 650 square kilometres, so it is nearly twice the size of the Isle of Wight in the UK or one fifth the size of Rhode Island in the USA. The population is about 4.3 million, which makes it the second most densely populated country in the world (after Monaco).
Library Databases

**Subject-specific databases**
- IEEE Xplore
- Engineering Village
- Science Direct
- SpringerMaterials

**Multidisciplinary Databases**
- JSTOR
- Project Muse
- Proquest
- Oxford Reference

**Research tools**
- Sage Research Methods
Eresource licensing – terms & conditions of use

• Users are personally liable
• Do not share your password
• Access to eresources is limited to a student's term of enrollment in NTU
• Do not download/access multiple full text documents excessively or within a short period of time

I understand that unauthorised access and excessive downloading of data is strictly not allowed and will be monitored.
Access to e-resources

• Off-campus & On-campus access
• NTU network account username & password
Databases

- Search database by subject or material type
- Remember to click “clear filter” after every database search
SpringerMaterials celebrates the 2019 Nobel Prize in Chemistry winners

Congratulations to the 2019 Nobel Prize in Chemistry winners: John B. Goodenough, M. Stanley Whittingham, and Akira Yoshino for their tremendous contributions to the field of materials for energy applications. We are proud to showcase the work published on SpringerMaterials by such ground-breaking scientists. **Nobel Prize 2019**

**The research solution for identifying material properties**

Fast and reliable insights accelerating materials science research

SpringerMaterials provides curated data and advanced functionalities to support research in materials science, physics, chemistry, engineering, and other related fields.
Standards and COVID-19

Standards development organizations are responding to the COVID-19 pandemic by providing free access to relevant standards, used by engineers, researchers, and manufacturers, such as those for PPE, respirators, medical devices, emergency management, and so forth.

- ASTM standards: https://www.astm.org/COVID-19/
- IEEE standards: https://innovate.ieee.org/covid-19_related_research/

Inspec Analytics

Explore the connected data within Inspec to uncover patterns and trends for various engineering disciplines.

- Discover emerging topics
- Find the best resources for publishing your research
- Identify collaboration opportunities
- Monitor your institution's research output

Libguides: Research101

https://libguides.ntu.edu.sg/doresearch

Research101: Home

About

This LibGuide is intended to provide information on the research cycle for the academic community, primarily graduate students and early career researchers. It will cover Planning, Managing, Publishing, Measuring and Archiving. It will also cover tasks/activities associated with each phase.

For NTU students who are embarking on their Final Year Projects (FYP), please refer to this customized FYP LibGuide to assist you in your project journey.
