NTU Singapore launches nationwide challenge for innovative ideas to be turned into startups to shape post-COVID-19 world

As Singapore enters the next phase of its calibrated response to the ongoing pandemic, many are asking what direction the economy will take in a post-COVID-19 world.

NTUitive, the innovation and enterprise company of **Nanyang Technological University, Singapore (NTU Singapore)** is launching **ideasinc 2020**, a nationwide startup challenge to spur young and aspiring entrepreneurs to turn their innovative ideas into successful real-life startups that can contribute to the country's future in the "new normal".

Mr Inderjit Singh, Chairman of NTUitive and a Member of NTU's Board of Trustees, says, "Post-COVID-19, companies have to reinvent their business models to manage the disruptions, health and environmental issues to operate in the new normal. During the crisis, new business models have already emerged. So, while the future appears hazy, the economy will eventually recover and new business opportunities will emerge. This crisis is a good time to look for gaps in the market upon which a sustainable business can be built. ideasinc is an excellent platform for aspiring entrepreneurs to experiment with such new ideas and to tap on the support offered by NTUitive to navigate the startup world in a guided manner."

ideasinc, which began in 2009 as a business plan competition for NTU students, is open to everyone aged 18 and above who is a first-time entrepreneur. Participants must form teams of three with at least one team member being a Singapore citizen or Permanent Resident. The top 30 teams will be required to incorporate a business entity, based on the proposal submitted at the start of the semi-final stage of the competition.

Up to S\$35,000 worth of cash prizes await the winners of this startup challenge, in addition to access to various other grants and investment opportunities. Winners will be announced on the Final Presentation Day, which will be held at the end of the year.

ideasinc 2020 is inspired by the United Nations Sustainable Development Goals and participants are encouraged to submit practical solutions related to the areas of crisis prevention, building cities of resilience and environmental sustainability.

Experienced business professionals and startup founders are also encouraged to volunteer as mentors to guide these entrepreneurs of the future.

Dr Alex Lin, Interim CEO of NTUitive says, “To ensure that we emerge stronger from the pandemic, we are calling on young people and business mentors to come together to create innovative solutions that will benefit our community in the post-COVID-19 world. ideasinc is a platform for aspiring entrepreneurs to validate their ideas and develop their business models. Participants will benefit from the mentorship provided by individuals with good domain knowledge and rich industrial experience. They will also have the opportunity to fund raise.”

The startup challenge will take place in the following format and stages:

26 May to 20 July 2020

- A two-month registration period
- NTUitive will match potential mentors for the participants

July to October 2020:

- Announcement of the top 60 teams
- Announcement of the top 30 teams
- One-to-one mentorship
- Semi-Finals (Pitching Day)
- Final Presentation Day

Please refer to the Annex below for further information on ideasinc 2020.

To register, please visit: ideasinc.sg. Registration ends on Monday, 20 July 2020.

About Nanyang Technological University, Singapore

A research-intensive public university, Nanyang Technological University, Singapore (NTU Singapore) has 33,000 undergraduate and postgraduate students in the Engineering, Business, Science, Humanities, Arts, & Social Sciences, and Graduate colleges. It also has a medical school, the Lee Kong Chian School of Medicine, established jointly with Imperial College London.

NTU is also home to world-class autonomous institutes – the National Institute of Education, S Rajaratnam School of International Studies, Earth Observatory of Singapore, and Singapore Centre for Environmental Life Sciences Engineering – and various leading research centres such as the Nanyang Environment & Water Research Institute (NEWRI) and Energy Research Institute @ NTU (ERI@N).

Ranked amongst the world's top universities by QS, NTU has also been named the world's top young university for the past six years. The University's main campus is frequently listed among the Top 15 most beautiful university campuses in the world and has 57 Green Mark-certified (equivalent to LEED-certified) buildings, of which 95% are certified Green Mark Platinum. Apart from its main campus, NTU also has a campus in Novena, Singapore's healthcare district.

Under the NTU Smart Campus vision, the University harnesses the power of digital technology and tech-enabled solutions to support better learning and living experiences, the discovery of new knowledge, and the sustainability of resources.

Narrative, Themes and Challenges

Sustainable development is at the heart of the Singapore story, and Singapore is often held in high regard as an example of the plucky nation that survived and thrived despite having minimal resources. The tenacity of our people and steadfastness of our thought leadership are often cited as the reasons for our success.

Singapore was built by resilient and industrious people and our response to COVID-19 has demonstrated this. Businesses need to innovate to continue functioning in challenging circumstances. Work needs to be reimaged and reinvented using contemporary technologies.

Inspired by the United Nations Sustainable Development Goals (<https://sustainabledevelopment.un.org/>), ideasinc 2020 looks for challenges and solutions in the areas of **crisis prevention, building a city of resilience and/or environmental sustainability**.

This is an excellent opportunity for budding entrepreneurs and companies to find ways to accelerate their growth and development and to scale their ideas and products to new markets as they seek profitable solutions to tackle issues faced by our nation.

Participants will pick a topic of challenge, identify the problem (in Singapore context) and propose a solution.

1. Crisis Prevention and Building a City of Resilience

a. Good Health and Well-Being

Challenge 1: Prevent and/or fight communicable diseases

Challenge 2: Promote mental health

b. Industry, Innovation and Infrastructure

Challenge 3: Effective and efficient transportation and logistics services (to facilitate the flow of people, goods, services and ideas)

Challenge 4: Robust information and communication infrastructure to improve citizens' quality of life and liveability

2. Environmental Sustainability

a. Responsible consumption and production

Challenge 5: Zero Waste Nation – reduce, reuse and recycling of e-waste, plastic and packaging, and food waste

Challenge 6: Control of Toxic Industrial Waste

Challenge 7: Water and/or Energy Efficiency

b. Climate Action (Taking Urgent Action to Combat Climate Change and Its Impacts)

Challenge 8: Reduce Carbon Emissions (Transport, Buildings & Energy)

Challenge 9: Sustainable Energy

Call for Mentors

- **Scope:**
 - Exclusive mentorship to 1 of the Top 30 Teams
 - Meet with the team for at least two sessions to provide guidance to their proposal based on the evaluation criteria
 - Provide access and knowledge to related markets and industry
 - Encourage and direct team to validate their proposal with market evidence and data
