NTU

SINGAPORE—Engine maker Rolls-Royce is renewing its partnership with Singapore's Nanyang Technological University (NTU) in a public-private research and development partnership, with a joint investment of S\$88 million (\$64.6 million) for the second phase of the

facility's work. Opened in 2013, the Rolls-Royce@NTU Corp Lab was the first corporate lab in a Singapore university. The facility has since completed 53 research projects in areas including power electronics, ...
