# Colour Workshop

**Description**

**Topic:** Basic Colour Workshop using Watercolour  
**Objective:** To learn basic colour theory with practical exercises in watercolour  

1. Introduction to Basic Colour Theory using the Munsell Colour System  
   → Discussion of common misconception of Colour Wheel based on the symmetrical Itten Colour Wheel  
   → Introduction to the theoretical framework based on the Munsell Colour System — 30min  
   → Practical Demo: 15mins  

2. Discussion of the importance of Transitional Colours (Browns and Grays) and their connection to the chromatic parent hues.  
   → Showing the connection between Chromatic Hues and Transitional Colours — 30 mins  
   → Practical Exercises working with Browns, Grays with 1 or 2 Chromatic Hues — 1 hour  

3. Discussion of how to use green colours, as green occupies the largest colour space based on the Munsell Colour System.  
   → Showing how green can create hue difference within its hue zone — 15mins  
   → Practical Exercise working with green hues to create wide range of greens including transitional colours and chromatic green hue. — 30mins

**Activity Type(s)**  
Lecture  
Tutorial

**Lecturer**  
Ng Woon Lam (Assoc Prof)

**Class Size**  
10 - 20 pax

**Duration**  
3 hours

**Time**  
9.30am to 12.30pm

**Venue**  
TBC
