

## **TUITION FEES – Full Time Undergraduate Programmes**

### **IMPORTANT NOTES:**

1. Under the cohort-based fee system, tuition fee for a specific cohort of students will be fixed throughout the student's entire candidature.
2. For National Servicemen whose enrolment in the University is deferred by one or two years because of their National Service commitment, the Tuition Fee payable will be based on the prevailing tuition fees of the year they had first accepted a place in the University.

If the National Serviceman accepts the place first offered and successfully re-applies / changes his course of study in a subsequent year, he will pay the tuition fees of the new course based on the tuition fees of the year they had first accepted a place.

3. The tuition fees are applicable for Semester 1 and 2 of an academic year. Tuition and compulsory miscellaneous fees for every semester 1 and 2 of study are payable by students as long as their status is active and not on semester leave of absence. The fees are fixed regardless of their academic load or whether they are on internship or exchange programme.
4. Students who withdraw or apply for leave of absence from the University after the 2<sup>nd</sup> Teaching Week are liable for the payment of tuition and compulsory miscellaneous fees for the entire semester.
5. For Semester 1 and 2, students who change their nationality are to submit the full set of original document(s) for nationality change at One Stop @SAC no later than the end of Teaching Week 3 to effect tuition fee adjustment in the semester. If the submission of relevant documents for nationality change falls after Teaching Week 3, the revised Tuition Fee will be effected in the following semester.

For Special Term, student's tuition fee will be based on the new nationality if the full set of original document(s) for nationality change is submitted to One Stop @ SAC no later than the end of the final Teaching Week of the preceding Semester 2. There will be no fee adjustment for Special Term after final Teaching Week of the preceding Semester 2 or during Special Term.

6. Full-time Singaporean and Singapore PR undergraduate students who gain admission or gain re-admission to NTU on a subsidised fee basis are eligible for Tuition Grant and GST subsidy from MOE up to the normal programme duration less the number of semesters of Tuition Grant received in the previous institution if any (i.e. NUS / NTU / SMU / SUTD / SIT / SUSS).

Full-time International undergraduate students who gain admission or gain re-admission to NTU on a subsidised fee basis are eligible for Tuition Grant from MOE up to the normal programme duration less the number of semesters of Tuition Grant received in the previous institution if any (i.e. NUS / NTU / SMU / SUTD / SIT / SUSS).

For students who have exceeded the normal programme duration (less the number of semesters of Tuition Grant received in the previous institution), they will no longer be eligible for the Tuition Grant and GST subsidy from MOE. NTU will however subsidise the tuition fees such that students pay a fee equivalent to the MOE subsidized fees up to their maximum candidature (less the number of semesters of Tuition Grant received in the previous institution and NTU). GST on the tuition fees is to be borne by the student.

For example, a Singaporean student had spent 2 semesters in a local university, and transfers to NTU to pursue a 4-year (i.e. 8 semesters) undergraduate programme with maximum duration of 6 years (12 semesters). The student will be eligible for the subsidized tuition fee for 10 semesters (12 minus 2). Tuition fees and GST for the first 6 semesters will be subsidized by MOE. Tuition fees for the next 4 semesters will be subsidized by NTU and GST is to be borne by student.

7. Students who are Singapore Citizens are required to sign a “Declaration for MOE Tuition Grant Eligibility” form to facilitate NTU’s assessment of their eligibility for Tuition Grant. Students who are not eligible for the Tuition Grant will be charged the non-subsidised tuition fees.
8. Singapore PR and International Students who are eligible for and intend to take up the MOE Tuition Grant must apply for the Tuition Grant. Those eligible must sign a MOE Tuition Grant Agreement, which will require them to work in Singapore-based companies for 3 years upon graduation from NTU. Those who are not eligible, or choose not to apply for the grant, are required to pay the non-subsidised fees.
