Senior Vice President Research (SVPR) Office Communication

MESSAGE FROM SENIOR VICE PRESIDENT (RESEARCH)

Global Alliance of Industries @ NTU (GAIN)

GAIN is NTU's new initiative to create and develop deeper industry relations and facilitate greater research advancements. GAIN is a one-stop platform to create new partnerships, accelerate innovation and foster interdisciplinary collaborations. GAIN would serve as a gateway for our industry partners to tap on the expertise of our world-class faculty and researchers. Together with GAIN Director (Prof. Madhavi Srinivasan), we look forward to working with strategic partners to leverage on our strengths to accelerate research innovation and collectively achieve a better future.

We are excited to share with you a slew of initiatives in the coming months through our GAIN newsletter (GAIN SIGHTS). We recently organised GAIN Distinguished Speaker Series, a flagship event to bring renowned academia/industry experts to engage with NTU community. The inaugural session was conducted by Mr Kris Gopalakrishnan, Co-Founder of Infosys and our esteemed Nanyang Professor of Practice, where he shared invaluable insights on the challenges and opportunities that arose from the COVID-19 pandemic. We look forward to engaging everyone with more activities and events in the year ahead.

Wishing everyone a healthy and safe year ahead.

Professor Lam Khin Yong
Senior Vice President (Research)
NTU President's Office

GAIN ACTIVITIES

Distinguished Speaker Series: What the Pandemic has Taught Us

GAIN hosted its inaugural Distinguished Speaker Series featuring Nanyang Professor of Practice, Mr Kris Gopalakrishnan, Co-Founder of Infosys and recipient of Padma Bhushan (Government of India), the country's third-highest civilian honor. The session, moderated by NTU President Subra Suresh, was conducted in a hybrid (physical and virtual) mode which was well attended by participants from Singapore and India.
