The SAF-NTU Continuing Education Master's Programme

The SAF-NTU Continuing Education (CE) Master's Programme is designed to equip eligible SAF officers with a Master's degree from Nanyang Technological University (NTU Singapore) through full-time and/or part-time study post-Command and Staff Course (CSC) / Command and Staff Course (Executive) [CSC (E)] at Goh Keng Swee Command and Staff College (GKS CSC). Participating officers will have a variety of NTU Master's degree programmes to choose from covering areas such as International Relations, Business Administration, Supply Chain and Logistics, Mass Communication and Instructional Design. To address the CE needs of non-graduate SAF officers, Bachelor's degrees from Singapore University of Social Sciences (SUSS) are offered and eligible participating officers can choose from a range of SUSS's undergraduate programmes.

Background

The SAF's operational edge lies in the continual and holistic nurturing of its people at all levels, enabling them to contribute effectively to the SAF's mission.

With its strong commitment to nurturing and developing its people, the SAF can achieve higher individual performance and greater organisational excellence. Its nurturing efforts are centered on 3 areas:

1. Support for the Continuing Education of servicemen to strengthen their cognitive abilities.
2. Professional Military Education and Training to build their skills and knowledge for greater military professionalism.
3. Leadership Development to build strong leaders for the SAF.

By attending the Undergraduate and/or Master's Programme at SUSS and NTU, SAF officers will be exposed to the latest ideas and practices in their chosen fields, beyond their jobs in the SAF. Fellow students attending the same programmes will also benefit from interaction and exchange with the SAF officers. Through continual and systematic training and education, SAF officers will have opportunities to acquire new knowledge at key junctures of their careers.

The SAF-NTU CE Programme will help to develop well-rounded leaders for the 3rd Generation SAF - leaders who are well equipped to meet the increasing complexities and dynamic challenges of the new security environment.

About SAF-NTU Academy

The idea of establishing a multidisciplinary centre to support continuing education and professional military education and training (PMET) for SAF officers was first mooted in March 2008. Subsequently, the MOU between SAF and NTU to establish a strategic partnership to support continuing education of SAF personnel was signed on 17 June 2008.

The establishment of SAF-NTU Academy was approved in May 2009 and the Academy was formally set up in May 2010.

The Academy's mission is to create and sustain the academic capacity and knowledge needed to equip military leaders with professional military knowledge using multidisciplinary approaches. By providing such PMET, the Academy contributes to the SAF's overall nurturing and engagement efforts that seek to develop competent and committed SAF professionals.

Professional military education and training, which seeks to build professional knowledge, coupled with continuing education, which offers an added dimension of academic upgrading, enhances the individual development of SAF leaders and strengthens the SAF's career proposition.

The Academy works closely with both SAF and NTU agencies to plan, manage and deliver all SAF-NTU continuing education programmes. It also provides support to SAF students on academic matters such as applications, credit transfers and issuance of certificates and transcripts.

About Nanyang Technological University (NTU Singapore)

A research-intensive public university, Nanyang Technological University (NTU Singapore) is ranked 12th globally. It is also ranked the world's best young university. The university has colleges of Engineering, Business, Science, Humanities, Arts, & Social Sciences, and an Interdisciplinary Graduate School. It also has a medical school, Lee Kong Chian School of Medicine, set up jointly with Imperial College London.

NTU is also home to world-class autonomous entities such as the National Institute of Education, S. Rajaratnam School of International Studies, Earth Observatory of Singapore and Singapore Centre on Environmental Life Sciences Engineering. NTU provides a high-quality global education to about 33,000 undergraduates and postgraduate students.

The student body includes top scholars and international olympiad medallists from the region and beyond. The university's 4,300-strong teaching and research staff hail from more than 80 countries, bringing dynamic international perspectives and years of solid industry experience.

College of Engineering

- A research-intensive and industry focused college.
- Six schools focused on technology and innovation with research output among the top nine in the world.
- Strong industrial links.

Lee Kong Chian School of Medicine

- NTU's joint medical school with Imperial College London.
- Train future doctors for Singapore, pioneer medical innovations and bring about enhancements to the healthcare system.

College of Science

- Runs Singapore's only direct honours bachelor's degree programmes in the biological, physical and mathematical sciences.
- Award-winning faculty and world-class laboratories.

College of Professional and Continuing Education

- Offers programmes for continuing professional education and development.
- Equip PMEs with updated knowledge and skills to keep pace with the rapid technological changes.

Nanyang Business School

- The Nanyang MBA placed 22nd in the 2018 Financial Times Global MBA rankings. It is ranked 5th in Asia Pacific. Since 2004, the Nanyang MBA has consistently been rated among Asia's top 10 MBA programmes and the best in Singapore. The Nanyang Executive MBA placed 18th in the Financial Times Executive MBA rankings in 2018.
- The first business school in Singapore, and the third in Asia, to be accredited by both the European Quality Improvement System (EQUIS) and Association to Advance Collegiate Schools of Business (AACSB). NBS is also one of only 11 business schools outside of the US to be accredited with the AACSB in Accounting. These are the most widely recognised quality assurance standards for accounting and business education, and they assure that degrees conferred are recognised around the world.
- Home to the world's best business educator, Professor Vijay Sethi, who was awarded Business Professor of the Year (2013) by the Economist Intelligence Unit.

College of Humanities, Arts & Social Sciences

- Home to some 5,000 undergraduate and graduate students, the College represents the dynamic interface between several major disciplines.
- The School of Art, Design and Media is Singapore's only professional art school to offer graduate degree programmes in art, design and interactive digital media.
- The School of Humanities and School of Social Sciences are home to a growing community of scholars with niches of excellence in research on Asia.
- The Wee Kim Wee School of Communication and Information is one of the most established communication schools and consistently ranked top 15 globally.

Singapore Centre on Environmental Life Sciences

- Seeks to become a world leader in research on microbial biofilms.
- The goal of finding new solutions in water and environment sustainability.

National Institute of Education

- An autonomous institute of NTU and Singapore's national teacher-training institute.
- Internationally acclaimed and provides education consultancy to overseas partners.

Interdisciplinary Graduate School

- Supports PhD research in the university's interdisciplinary research centres in Sustainable Earth, New Media and Future Healthcare.

S. Rajaratnam School of International Studies

- An autonomous graduate institution of NTU and runs the Institute of Defence and Strategic Studies, long recognised as a world authority on strategic studies and security research.
- Ranked amongst the top 50 Think Tanks in the world in the 2011 Global Go-To Think Tanks ranking; ranked 31st among university-affiliated think tanks in the world.

Earth Observatory of Singapore

- Established in 2008 with S\$150 m in state funding.
- Dedicated to hazards-related earth science.

Diverse Disciplines for Diverse Talents

Phases & Features of the SAF-NTU Continuing Education Master's Programme

CSC Phase I

The Goh Keng Swee Command and Staff College (GKS CSC) and NTU co-teach NTU accredited CE Master's courses in the key areas of Military Leadership and Military Studies. The courses are listed below. Officers attending CSC need to choose any of the 4 main courses (subject to a minimum of 2) to be completed up to NTU's accreditation requirement. Officers will still have to go through the remaining courses that are not chosen for accreditation, but with less assignment and assessment. In addition to the 4 main courses, an optional course is also offered.

Four main NTU accredited CE Master's courses

- Leadership in Context (LC)
- Leadership Development in Organisation (LDO) - comprises Communication Management & Team Development
- The Analysis of Defence and Security Policies (ADSP)
- The Evolution of Strategic Thought (EST)

Optional NTU accredited CE Master's course

- Maritime Security Studies (MSS)

CE Master's course registration

Officers are only allowed to register for courses (that are to be completed up to NTU's accreditation requirement) during the period allocated. All registration of courses must be finalised within the stipulated period. After the period, officers are not allowed to add or drop any courses.

A course dropped within the registration period will not appear in the Record of Courses and official transcript. However, for a course that is dropped outside the registration period, it will be deemed that the officer has sat and failed the course and a grade 'F' will be reflected in the Record of Courses.

Registration Period

Start Date	End Date
16 January 2019, Wednesday	27 February 2019, Wednesday

Credit Transfer for the CE Master's courses

SUSS - Undergraduate Programme

The total Credit Recognition is capped at 40cu. The CE Master's courses completed up to NTU accreditation requirement may be recognised towards the undergraduate programme pursued.

NTU Master's Programme

SAF officers will be given up to 4 course credit transfer depending on the number of CE Master's courses taken up to NTU's accreditation requirement and choice of NTU Master's programme. Completion of the combination of CE Master's courses to obtain maximum course credit transfer will amount to completion of 10%-40% of a typical NTU Master's Programme coursework.

The number of credit transfer attainable for the various NTU Master's programmes is shown in the table below:

NTU Colleges/Schools	Master's Programme	CSC Maximum Course Credit Transfer	4 Main CE Master's Courses ⁵	
			LC	Leadership in Context
			LDO	Leadership Development in Organisation
			ADSP	The Analysis of Defence and Security Policies
			EST	The Evolution of Strategic Thought
			Officers must take a minimum of 2 courses to be completed up to NTU's accreditation requirement	
			Optional Courses	
			MSS	Maritime Security Studies (Applicable to Navy officers)
			*PB6020 PB8021	Accounting Analytics for Decision Making (half course) (Compulsory for officers who want to take up full-time M.B.A, immediately after CSC)
NBS	M.Sc. (Management)	4 ¹	LC=1, LDO=1, ADSP=1, EST=1	
	M.Sc. (Strategy)			
	M.Sc. (Human Capital Management)			
	M.B.A (General) ⁴		2 + MBA Courses*	LC=1, LDO=1, ADSP=1, EST=1 Choose LC, LDO ² • MBA courses* will be conducted in Tri 1 ³
	M.B.A (Strategy and Innovation) ⁴	2 + MBA Courses*	LC=1 ² , LDO=1 ² • MBA courses* will be conducted in Tri 1 ³	
RSIS	M.Sc. (Strategic Studies)	4	LC=1, LDO=1, ADSP=1, EST=1, MSS=1 Choose ADSP, EST and any 2 of the 3 (LC, LDO & MSS) courses	
	M.Sc. (International Relations)	4	LC=1, LDO=1, ADSP=1, EST=1, MSS=1 Choose ADSP and any 3 of the 4 (LC, LDO, MSS & EST) courses	
	M.Sc. (Asian Studies)	3 + MSS	LC=1, LDO=1, ADSP=1, EST=1, MSS=1 Choose any 3 of the 4 (LC, LDO, ADSP & EST) courses • For Navy officers, MSS is an additional course for transfer	
	M.Sc. (International Political Economy)	2	LC=1, LDO=1, ADSP=1, EST=1, MSS=1 Choose any 2 courses	
CoE (MAE)	M.Sc. (Supply Chain and Logistics)	2	LC= 1/2, LDO= 1/2, ADSP = 1/2, EST = 1/2 A combination of two 1/2 credits to get 1 course credit	
	M.Sc. (Systems & Project Management)	1	LDO= 1/2 and LC= 1/2 A combination of two 1/2 credits to get 1 course credit	
	M.Sc. (Mechanical Engineering)	1	EST=1	
CoHASS (WKWSCI)	Master of Mass Communication	2	LDO=1, LC=1	
	M.Sc. (Knowledge Management)			
CoHASS (NCPA)	Master of Public Administration	3	LC=1, LDO=1, ADSP=1	
NIE	M.A (Instructional Design & Technology)	1	LDO=1/2, LC=1/2 A combination of two 1/2 credits to get 1 course credit	
	M.A (Educational Management)	1	LDO=1/2, ADSP=1/2 A combination of two 1/2 credits to get 1 course credit	

1. To qualify for 1, 2 or 3 course credit transfer, at least 1 course must be either LC or LDO, with a minimum grade point of 2.5. To qualify for a maximum of 4 course credit transfer, all 4 courses must have a minimum grade point of 2.5 each.

2. For credit transfer to the MBA programme, both LC and LDO must be taken and both must have a minimum grade point of 2.5 each (treated as a pair).

3. The course combination applies for officers who want to take up full-time M.B.A immediately after CSC. For those who intend to take up M.B.A (General) after AY2019/20, please choose LC, LDO and ADSP, EST for a maximum of 4 course credit transfer. For those who intend to take up M.B.A (Strategy and Innovation) after AY2019/20, please choose LC, LDO, for a maximum of 2 course credit transfer.

4. Officers who want to apply to the Out-of-Phase M.B.A programme and attend the pre-requisite classes in Trimester 1 AY2019/20 would need to get approval from Commandant GKS CSC.

5. For past CSC cohorts who have taken Military Technology/Systems and Project Management course and/or Security Studies and Campaign and War Studies courses, the credit transfer for these courses still applies.

Assuming maximum course credit transfer for the chosen Master's programme from Phase I, the number of remaining courses in Phase II for the various NTU Master's programmes and the availability of the 2 trimesters/1 semester full-time studies immediately after CSC, are shown in the table below.

NTU Colleges/ Schools	Master's Programme	Maximum Course Credit Transfer from Phase I	Remaining Courses in Phase II (ISM-Independent Study Module)	2 Trimesters/ 1 Semester Full-time Studies offered immediately after CSC
NBS	M.Sc. (Management)	4	5 + 1 ISM	Yes
	M.Sc. (Strategy)	4	5 + 1 ISM	Yes
	M.Sc. (Human Capital Management)	4	5 + 1 ISM	Yes
	M.B.A. (General) ¹	4	12	Yes ²
	M.B.A. (Strategy and Innovation) ¹	4	12	Yes ²
RSIS	M.Sc. (Strategic Studies)	4	4 + 1 ISM	Yes
	M.Sc. (International Relations)	4	4 + 1 ISM	No
	M.Sc. (Asian Studies)	4	4 + 1 ISM	No
	M.Sc. (International Political Economy)	2	6 + 1 ISM	No
CoE (MAE)	M.Sc. (Supply Chain and Logistics)	2	7 + 1 ISM	Yes
	M.Sc. (Systems & Project Management)	1	8 + 1 ISM	Yes
	M.Sc. (Mechanical Engineering)	1	8 + 1 ISM	Yes
CoHASS (WKWSC)	Master of Mass Communication	2	8	Yes
	M.Sc. (Knowledge Management)	2	7 + 1 Critical Inquiry	Yes
CoHASS (NCPA)	Master of Public Administration	3	7 + 1 Capstone Project	Yes
NIE	M.A. (Instructional Design and Technology)	1	6 + 1 (2-AU) course	Yes
	M.A. (Educational Management)	1	6 + 1 Critical Inquiry	No

1. The total number of academic units (AU) for the M.B.A programme is 48.5.

2. 50th CSC officers who want to apply to the Full-Time M.B.A programme and attend the pre-requisite classes in Trimester 1 AY2019/20 would need to get approval from GKS CSC.

CSC (Executive) Phase I

For CSC (E), four CE Master's courses are offered, namely, Leadership Development in Organisation, Leadership in Context, The Evolution of Strategic Thought and The Analysis of Defence and Security Policies. Officers attending CSC (E) will be required to take a minimum of 1 of the 4 main courses, to be completed up to NTU's accreditation requirement. Officers will still have to go through the remaining courses that are not chosen for accreditation, but with less assignments and assessments.

Four main NTU accredited CE Master's courses

- Leadership Development in Organisation (LDO)
- comprises Communication Management & Team Development
- Leadership in Context (LC)
- The Analysis of Defence and Security Policies (ADSP)
- The Evolution of Strategic Thought (EST)

CE Master's course registration

Officers are only allowed to register for courses (that are to be completed up to NTU's accreditation requirement) during the period allocated. All registration of courses must be finalised within the stipulated period. After the period, officers are not allowed to add or drop any courses.

A course dropped within the registration period will not appear in the Record of Courses and official transcript. However, for a course that is dropped outside the registration period, it will be deemed that the officer has sat and failed the course and a grade 'F' will be reflected in the Record of Courses.

Registration Period

Cohort	Start Date	End Date
12th CSC(E)	16 January 2019, Wednesday	27 February 2019, Wednesday
13th CSC(E)	17 April 2019, Wednesday	29 May 2019, Wednesday

Note:

Officers will receive a confirmation on the courses they have enrolled for via email within 5 working days.

Credit Transfer for the CE Master's courses

SUSS - Undergraduate Programme

The total Credit Recognition is capped at 40cu. The CE Master's courses completed up to NTU's accreditation requirement may be recognised towards the undergraduate programmes pursued.

NTU Master's Programme

SAF officers will be given up to 4 course credit transfer depending on the number of CE Master's courses taken up to NTU's accreditation requirement and choice of the NTU Master's programme. Completion of the combination of CE Master's courses to obtain maximum course credit transfer will amount to completion of 10%-40% of a typical NTU Master's Programme coursework.

The number of credit transfer attainable for the various NTU Master's programmes is shown in the table below:

NTU Colleges/ Schools	Master's Programme	CSC(E) Maximum Course Credit Transfer	4 Main CE Master's Courses ³	
			LC	Leadership in Context
			LDO	Leadership Development in Organisation
			ADSP	The Analysis of Defence and Security Policies
			EST	The Evolution of Strategic Thought
			Officers must take a minimum of 1 course to be completed up to NTU's accreditation requirement	
NBS	M.Sc. (Management)	4 ¹	LC=1, LDO=1, ADSP=1, EST=1	
	M.Sc. (Strategy)			
	M.Sc. (Human Capital Management)			
	M.B.A (General)	4 ²	LC=1, LDO=1, ADSP=1, EST=1	
	M.B.A (Strategy and Innovation)	2 ²	LC=1, LDO=1	
RSIS	M.Sc. (Strategic Studies)	4	LC=1, LDO=1, ADSP=1, EST=1	
	M.Sc. (International Relations)	4	LC=1, LDO=1, ADSP=1, EST=1	
	M.Sc. (Asian Studies)	3	LC=1, LDO=1, ADSP=1, EST=1 Choose any 3 of the 4 (LC, LDO, ADSP & EST) courses	
	M.Sc. (International Political Economy)	2	LC=1, LDO=1, ADSP=1, EST=1 Choose any 2 of the 4 (LC, LDO, ADSP & EST) courses	
CoE (MAE)	M.Sc. (Supply Chain and Logistics)	2	LC=½, LDO=½, ADSP=½, EST=½ A combination of two ½ credits to get 1 course credit	
	M.Sc. (Systems & Project Management)	1	LC=½, LDO=½ A combination of two ½ credits to get 1 course credit	
	M.Sc. (Mechanical Engineering)	1	EST=1	
CoHASS (WKWSC)	Master of Mass Communication	2	LDO=1, LC=1	
	M.Sc. (Knowledge Management)	2	LDO=1, LC=1	
CoHASS (NCPA)	Master of Public Administration	3	LC=1, LDO=1, ADSP=1	
NIE	M.A (Instructional Design & Technology)	1	LDO=½, LC=½ A combination of two ½ credits to get 1 course credit	
	M.A (Educational Management)	1	LDO=½, ADSP=½ A combination of two ½ credits to get 1 course credit	

1. To qualify for 1, 2 or 3 course credit transfer, at least 1 course must be either LC or LDO, with a minimum grade point of 2.5. To qualify for a maximum of 4 course credit transfer, all 4 courses must have a minimum grade point of 2.5 each.
 2. For credit transfer to the MBA programme, both LC and LDO must be taken and both must have a minimum grade point of 2.5 each (treated as a pair).
 3. For past CSC(E) cohorts who have taken Security Studies and Campaign and War Studies courses, the credit transfer for these courses still applies.

Assuming maximum course credit transfer for the chosen Master's programme from Phase I, the number of remaining courses in Phase II for the various NTU Master's programmes is shown in the table below.

NTU Colleges/ Schools	Master's Programme	Maximum Course Credit Transfer from Phase I	Remaining Courses in Phase II (ISM-Independent Study Module)
NBS	M.Sc. (Management)	4	5+1 ISM
	M.Sc. (Strategy)	4	5+1 ISM
	M.Sc. (Human Capital Management)	4	5+1 ISM

CoHASS (NCPA)	Master of Public Administration	3	7 + 1 Capstone Project
NIE	M.A (Instructional Design & Technology)	1	6 + 1 (2-AU) course
	M.A (Educational Management)	1	6 + 1 Critical Inquiry

Post CSC/CSC(E) Phase II

After completing CSC/CSC(E), qualified SAF officers can apply for credit transfer for the CE Master's courses taken during Phase I to one of the Master's Programmes offered by NTU or to one of the Undergraduate Programmes offered by SUSS. Officers are encouraged to apply soon after CSC/CSC(E) so that they can better spread out the Phase 2 courses and gain the advantage of currency from their Phase 1 studies.

Eligibility for SAF-NTU CE Programmes¹

SUSS – Undergraduate Programme

GCE 'A' level with two passes (prior to 2006) or two H2 passes (from 2006), or local Polytechnic Diploma or International Baccalaureate (IB) Diploma or NUS High School Diploma.

NTU - Master's Programme

A recognised Bachelor's degree

A Cumulative Grade Point Average (CGPA) of at least 2.5 for the combination of NTU accredited CE Master's courses completed in Phase I (subject to the required minimum number of courses to be completed).

¹ Please refer to Admissions for the full entry requirements.

Eligible SAF officers have to register for one of the NTU Master's programmes offered any time within 5 years from the completion of CSC/CSC(E).

To complete the SAF-NTU CE Master's Programme, SAF officers will need to successfully complete the required number of courses and one Independent Study Module (where applicable) in NTU over a period not exceeding 7 years after the completion of CSC/CSC(E).

2 trimesters / 1 semester full-time and/or 7 years part-time Master's programme

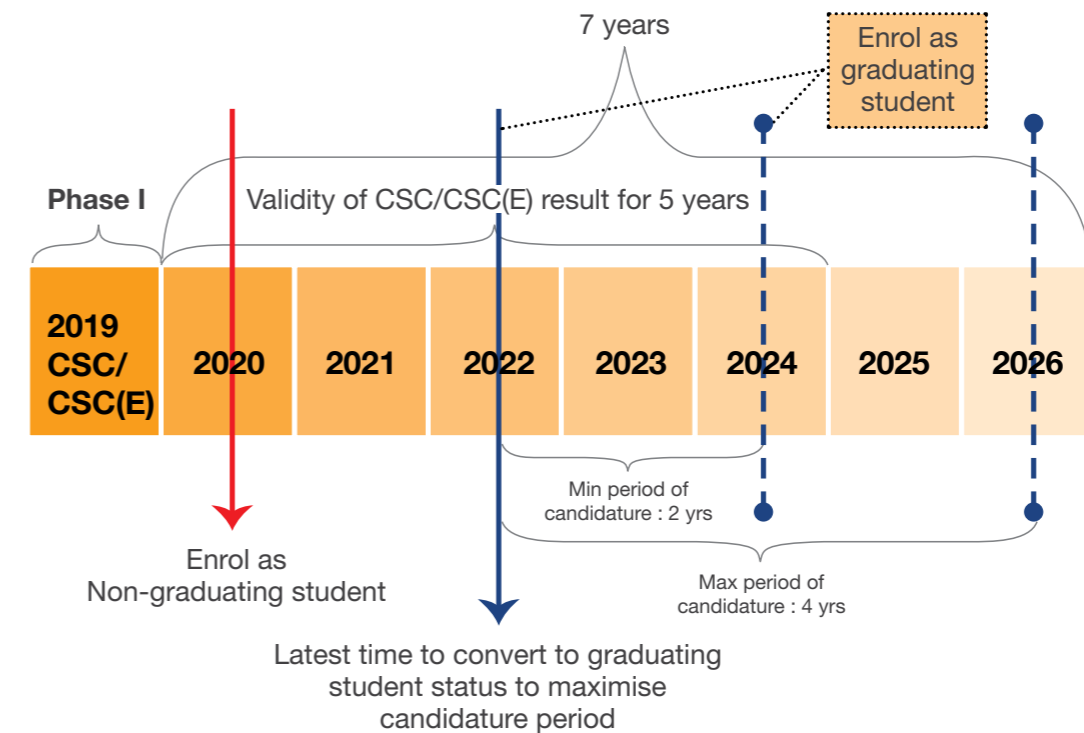

The SAF provides the opportunity for qualifying GKS CSC graduates to continue their Master's study full-time (for 2 trimesters or 1 semester) immediately after completion of CSC in November. Admission to the programmes available for full-time study would be in Trimester 2 in November for the NBS's and RSIS's programmes and Semester 2 in January of the following year for the CoE's and KWWSI's programmes. Similarly, NIE's Master of Arts (Instructional Design and Technology) programme and the NCPA's Master of Public Administration programme offer January admission. Qualifying SAF officers studying in GKS CSC will need to apply for the full-time programme by March. Conditional offer would be given but officers can only be admitted after meeting all entry requirements. For CSC(E) graduates, admission to the programme would be in Trimester 1 or Semester 1 of the Academic Year. Officers who cannot complete their Master's programme within the 2 trimesters / 1 semester (under their full pay study leave) for whatever reasons can continue to complete their remaining courses on a part-time basis thereafter. A one-time conversion is allowed (either from full-time to part-time or vice versa).

The 7 years part-time Master's programme allows the SAF officers to spread the workload over up to 7 years after completion of CSC/CSC(E). To fully maximise the 7 years study, SAF officers can enrol as a non-graduating student for about 2 years before converting to graduating student status to complete the remaining courses. The candidature period will apply after the conversion to graduating student status. SAF officers would need to apply for the part-time programme within January to March of the year after CSC/CSC(E) and admission would be in Trimester 1 or Semester 1 (July/August) of the Academic Year.

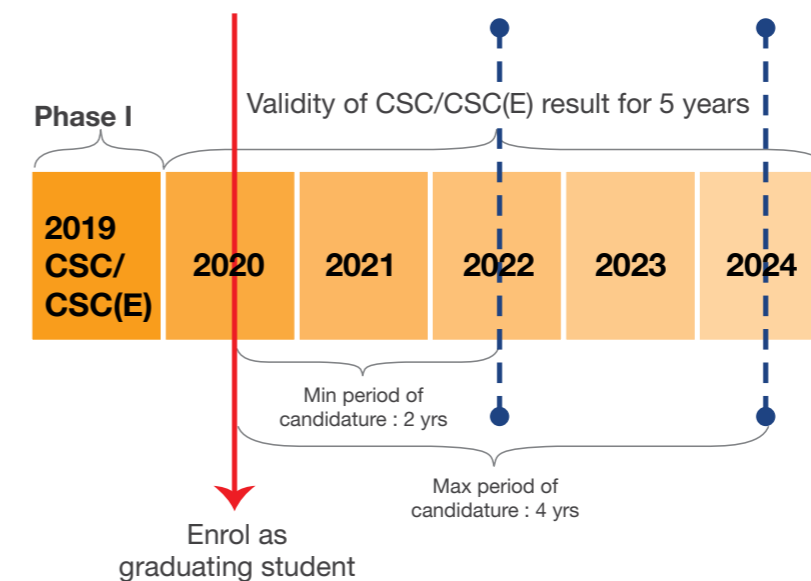

Timeline Chart for Phase II @ NTU

Scenario 1 : Maximum Period of Study (Part-time 7 years programme)

Scenario 2 : Minimum Period of Study (Applicable to part-time and full-time programme)

Note:

The minimum and maximum candidature periods as indicated in Scenario 1 and 2 apply to the RSIS, CoE, KWWSI and NIE's part-time programmes. For other programmes, both full-time and part-time, please refer to their candidature periods.

Candidature Periods

Officers must first register as a graduating student to commence their candidature. The candidature periods for graduating student are as follows:

Programmes	Full-time		Part-time	
	Minimum	Maximum	Minimum	Maximum
NBS - M.Sc. Programmes	3 Trimesters (1 year)	6 Trimesters (2 years)	4 Trimesters	9 Trimesters (3 years)
NBS - M.B.A	3 Trimesters (1 year)	6 Trimesters (2 years)	5 Trimesters	15 Trimesters (5 years)
RSIS - M.Sc. Programmes	3 Trimesters (1 year)	9 Trimesters (3 years)	6 Trimesters (2 years)	12 Trimesters (4 years)
Other M.Sc. / MMC / MPA Programmes	2 Semesters (1 year)	4 Semesters (2 years)	4 Semesters (2 years)	8 Semesters (4 years)
NIE - M.A Programme	2 Semesters (1 year)	4 Semesters (2 years)	4 Semesters (2 years)	8 Semesters (4 years)

Officers must complete their Master's programme according to the minimum and maximum candidature periods specified by the programme. Officers can convert once from full-time to part-time studies (or vice versa) to complete the remaining courses. After the conversion, the maximum candidature period will be calculated at a ratio of 1 full-time trimester/semester to 2 part-time trimesters/semesters.

Transfer of courses

The transfer of courses from Phase I to Phase II requires a minimum Grade point of 2.5 for each of the CE Master's courses completed in Phase I to be achieved (subject to the minimum number of courses to be completed). For the transfer of courses for the RSIS's M.Sc. programmes, a Cumulative Grade Point Average (CGPA) of 2.5 or more for the combination of CE Master's courses completed in Phase I is required.

Performance Requirement

NTU will give an academic warning to officers who obtain a Term Grade Point Average (TGPA) of less than 2.5. NTU will terminate an officer's candidature if the officer obtains a GPA of less than 2.5 for two consecutive trimesters/semesters.

SAF officers are required to inform their Service Personnel Management Centre of their results immediately after each trimester/semester.

Independent Study Module

SAF officers in the Master's programme are required to do an Independent Study Module (where applicable to the programme). This allows them to apply the concepts taught by NTU to their work experience in the SAF.

They should complete the Master's courses before they have embarked on the Independent Study Module.

Withdrawal

The SAF will consider withdrawal from the programme on a case by case basis. SAF officers who withdraw from the programme without the SAF's approval will be liable for liquidated damages.

SAF officers who resign from service whilst in the midst of the CE Programmes will cease to receive SAF sponsorship and will be liable for liquidated damages.

Awards & Specialisations

Award of regular NTU Master's degree with a specialisation

After meeting the course requirements in both Phases, SAF officers will be conferred a regular NTU Master's degree with specialisation and a Graduate Diploma in Military Leadership². This Diploma is awarded in recognition of the value of the SAF officers' military experience and education, and of their successful completion of the 5 CE Master's courses in Phase I.

Academic transcript

The Master's degree transcript will be awarded to the SAF officers who have successfully completed the CE Master's Programme, and this will include the combination of CE Master's courses done up to NTU's accreditation requirement in Phase I and the grades for each course.

² Graduate Diploma in Military Leadership will be awarded only if the student has completed all the 5 CE Master's courses in Phase 1 up to NTU's accreditation requirement and the Phase 2 Master's programme.

S. Rajaratnam School of International Studies

The S. Rajaratnam School of International Studies (RSIS) was established in January 2007 as an autonomous School within the Nanyang Technological University. Known earlier as the Institute of Defence and Strategic Studies when it was established in July 1996, RSIS' mission is to be a leading research and graduate teaching institution in strategic and international affairs in the Asia-Pacific.

To accomplish this mission, it will:

- Provide a rigorous professional graduate education with a strong practical emphasis,
- Conduct policy-relevant research in defence, national security, international relations, strategic studies and diplomacy,
- Foster a global network of like-minded professional schools.

Programmes

Master of Science (Strategic Studies)

The M.Sc. (Strategic Studies) programme is an imperative discipline that aims to equip students with the ability to decipher strategic theories and emerging security issues. This programme aims to

- develop security analysts who will be familiar with pressing strategic issues in the Asia-Pacific and beyond;
- introduce contemporary thinking across a whole spectrum of strategic and security-related issues; and
- convey a systematic understanding of the theories that explain the nature of interactions between states as well as non-state actors in an increasingly globalised international system.

The M.Sc. (Strategic Studies) programme will cover a broad spectrum of issues, including

- the study of the use of force in international politics;
- traditional security issues in the Asia-Pacific region;
- the nexus between non-traditional security issues and the use of force; and
- regional geopolitical issues and its impact on regional security.

For more information on the programme, please visit <http://www.rsis.edu.sg/gpo/graduate-programmes/msc-strategic-studies/curriculum/>

Master of Science (International Relations)

With a paradigm shift in the political powers of today, the M.Sc. (International Relations) programme is an integrative discipline that aims to equip students with the ability to decipher international relations theories and develop their own concepts to deal with real-world situations. This programme aims to

- (a) develop international relations analysts who will be familiar with pressing strategic issues in the Asia-Pacific and beyond;
- (b) introduce contemporary thinking across a whole spectrum of strategic and security-related issues;
- (c) convey a systematic understanding of the theories that explain the nature of interactions between states as well as non-state actors in an increasingly globalised international system; and
- (d) provide a sound basis for policy analysis in an increasingly complex world.

The M.Sc. (International Relations) programme will cover a broad spectrum of issues, including

- (a) theories of International Relations;
- (b) the making of foreign policy;
- (c) business planning and technology management; and
- (d) area studies, specially on the Asia-Pacific region.

For more information on the programme, please visit <http://www.rsis.edu.sg/gpo/graduate-programmes/mscinternational-relations/curriculum/>

Master of Science (Asian Studies)

Interest in Asian Studies amongst scholars is a growing phenomenon as political developments in the region take a new turn and the economic strength of Asia grows. With a focus on comparative politics, international relations and economics, the M.Sc. (Asian Studies) programme is designed to help students:

- (a) Obtain the necessary empirical knowledge and analytical perspectives required to become leaders in various professions related to Asian affairs;
- (b) Develop an in-depth understanding of the dynamic changes and new trends in Asia, using approaches rooted in the disciplines of history, comparative politics, international relations, and economics; and
- (c) Acquire various analytical tools and historical perspectives to facilitate development of expertise on emerging Asian political, economic and security issues on multiple levels.

The M.Sc. (Asian Studies) programme is empirically driven and area-centric. The programme places strong emphasis on a range of issues, including:

- (a) Political development in the region;
- (b) Economic development in major countries;
- (c) Traditional security issues in the region; and
- (d) Non-traditional security in the region.

For more information on the programme, please visit <http://www.rsis.edu.sg/gpo/graduate-programmes/msc-asian-studies/curriculum/>

Master of Science (International Political Economy)

Politics and economics are intertwined. In today's globalised world, understanding one area and not the other makes comprehension incomplete. Analysing and drafting effective policy requires knowledge about the interaction between economic and political goals. The M.Sc. (International Political Economy) programme provides the link between politics and economics by examining relevant theoretical and practical concepts from both disciplines. It seeks to equip students with:

- (a) Analytical skills necessary to understand complex interactions between international politics and economics;
- (b) Substantive knowledge spanning countries and regions throughout the world; and
- (c) An understanding of the historical evolution of the global political economy in order to appreciate and address challenges in the contemporary period.

The M.Sc. (International Political Economy) programme has been designed to ensure students gain a sound understanding in:

- (a) Theoretical and methodological issues in International Political Economy (IPE);
- (b) The basics of economic analysis, with an emphasis on macroeconomics;
- (c) Trade, finance and production networks; and
- (d) Key political trends and developments that may affect the world economy and vice versa

For more information on the programme, please visit <http://www.rsis.edu.sg/gpo/graduate-programmes/msc-international-political-economy/curriculum/>

Course Requirements

The Master of Science (Strategic Studies), Master of Science (International Relations) and Master of Science (Asian Studies) programmes allow for a credit transfer of up to 4 courses from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase 1. To successfully obtain the Master's degree, students are required to complete the remaining number of required Core, Primary and Elective courses and an Independent Study Module in Phase II.

Phase I	Phase II
Credit Transfer: Up to 4 courses	Remaining number of courses: At least 4 + 1 ISM Of the remaining 4 courses, students are required to complete the necessary Core, Primary and/or Elective courses to meet NTU's requirement for the MSc.

The Master of Science (International Political Economy) programme allows for a credit transfer of up to 2 courses from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase 1. To successfully obtain the Master's degree, students are required to complete the remaining number of required Core, Primary and Elective courses and an Independent Study Module in Phase II.

Phase I	Phase II
Credit Transfer : Up to 2 courses	Remaining number of courses: At least 6 + 1 ISM Of the remaining 6 courses, students are required to complete the necessary Core, Primary and/or Elective courses to meet NTU's requirement for the MSc.

Nanyang Business School

As one of the world's top-tier business schools, Nanyang Business School (NBS) is committed to nurturing leaders for a sustainable world through academically rigorous programmes that are relevant to business practice. One of Asia's largest business schools, NBS offers a comprehensive array of undergraduate and graduate programmes in accountancy and business. Through teaching and research, NBS grooms culturally intelligent leaders who pursue lasting success that seeks not only economic profit, but also the interests of the community and environment.

NBS provides an outstanding learning environment, with a full range of undergraduate and graduate programmes, state-of-the-art facilities and world-class research centres.

World-Class Learning Environment

NBS has a world-class learning environment, combining technologically advanced facilities and a vibrant community of thought leaders. The faculty leads global thought and research in several fields of business and finance, inspiring students with a curriculum that melds rigorous academic theory with real-world business practice.

Programmes

Master of Science (Management)

This specialisation highlights the professional challenges and responsibilities that managers will face. It builds a strong foundation of knowledge and analytical tools essential for business and general management.

For more information on the programme, please visit www.nbsmsc.ntu.edu.sg/programme/curriculum_MGT.asp

Master of Science (Strategy)

This specialisation equips participants with the tools necessary for analysing market structure and competitive dynamics. They will learn how to design organisation structures and processes to match strategy and eventually acquire a cross-functional and broad perspective of how to build knowledge-intensive organisations.

For more information on the programme, please visit www.nbsmsc.ntu.edu.sg/programme/curriculum_STRATEGY.asp

Master of Science (Human Capital Management)

This specialisation goes beyond the management of people as a functional management concern to focus on linking strategy, business and people - a critical responsibility of all successful managers and entrepreneurs. It does this through an in-depth understanding of and insight into the issues and managerial approaches essential for the effective management of human capital.

For more information on the programme, please visit www.nbsmsc.ntu.edu.sg/programme/curriculum_HCM.asp

Course Requirements

The Master of Science (with a specialisation) programme allows for a credit transfer of up to 4 courses from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase I. To successfully obtain the Master's degree, students are required to complete an additional 2 core courses, 3 electives and an Independent Study Module in Phase II.

Phase I	Phase II
Credit Transfer: Up to 4 courses	Remaining number of course: At least 5+1 ISM
	Of the 5 courses: 2x Core courses; 3x Elective courses

Note:

Information on MSc (with a specialisation) is accessible via login only www.nbsmsc.ntu.edu.sg
Username: nbsweb2\safti
Password: saf@ti2015

Master of Business Administration

The Nanyang MBA is an intensive programme that offers global perspectives with an Asian focus. Taught by highly qualified international faculty with strong industry links, the programme will equip you with relevant and innovative business knowledge and skills.

For more information on the programme, please visit www.nanyangmba.ntu.edu.sg

Course Requirements

Participants are required to complete 9 core courses, 4 electives, 1 Leadership Development module spread across two trimesters, 1 overseas Business Study Mission and 1 Strategy Project. Students have the option to do a MBA (General) or MBA (Strategy and Innovation).

Phase I	Phase II (General Track)
Credit Transfer: Up to 4 courses	Remaining number of courses: At least 12
	The remaining 12 courses would consist of core and elective courses, a Business Study Mission and a Strategy Project.

Phase I	Phase II (Strategy and Innovation Track)
Credit Transfer: Up to 2 courses	Remaining number of courses: At least 14
	The remaining 14 courses would consist of core and track electives, a Business Study Mission and a Strategy Project.

College of Humanities, Arts & Social Sciences

The College of Humanities, Arts, and Social Sciences (HASS) represents the dynamic interface between several major disciplines in four distinct schools and two Centres. They are the School of Art, Design and Media; the School of Humanities; School of Social Sciences; the Wee Kim Wee School of Communication and Information; the Nanyang Centre for Public Administration; and the Centre for Liberal Arts and Social Sciences. The College's graduate programmes offer a holistic learning and research experience for students to excel in careers in both academia and industry.

Nanyang Centre for Public Administration

Programme

Master of Public Administration

The Master of Public Administration (MPA) programme aims to prepare the next generation of public leaders with global vision to meet new challenges in policy-making and public governance in the rapidly changing worlds. The programme combines theory and practice with an emphasis on public policy and administration.

Why Choose the Programme

The MPA programme provides practice-orientated graduate education to government officials and professionals in ASEAN and beyond.

The programme aims to equip students with the know-how to develop and implement strategic policies in public governance to meet challenges in their countries and to further enhance their knowledge and effectiveness.

The curriculum includes the latest developments in economy, technology and public administration with Singapore and regional case studies. Key topics, such as Artificial Intelligence (AI), public policy, cybersecurity and terrorism, the impact of Belt and Road Initiative (BRI) and Singapore's strategic positioning in linking China with the ASEAN region will also be featured.

Students of the MPA programme can expect an interactive classroom experience with the opportunity to network between Singapore and ASEAN government officials and beyond.

The programme is offered in both full-time and part-time basis.

For more information on the programme, please visit www.ncpa.ntu.edu.sg.

Course Requirements

The Master of Public Administration (MPA) programme allows for a credit transfer of up to 3 courses from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase I. To successfully obtain the Master's degree, students are required to complete an additional 3 core courses, 4 elective courses and 1 capstone paper.

Phase I	Phase II
Credit Transfer: Up to 3 courses	Remaining number of course: 7+1 Capstone Project
	Of the 7 courses: 3x Core courses; 4x Elective courses

Wee Kim Wee School of Communication and Information

Programmes

Master of Mass Communication

The Master of Mass Communication (MMC) Programme is designed for those who are planning to have a career in the communication industry. The programme is also tailored to help prepare working professionals towards leadership positions. The curriculum exposes students to theory, research and practice and how these can be applied to the workplace. The programme has two streams: media studies and strategic communication with an emphasis on Singapore and Asia. Many graduates have since assumed leadership positions in the industry.

Master of Science (Knowledge Management)

The emergence of the knowledge-based economy has highlighted the need for effective exploitation of knowledge, making knowledge management a key area of activity in both the public and private sectors. This is the backdrop against which the Master of Science (Knowledge Management) programme has been designed. Knowledge management is the systematic process of taking advantage of intellectual capital and knowledge assets for organisational success. It helps build the capacity of the organisation by developing, organising, retaining and utilising its human and knowledge resources. This programme helps students design and implement knowledge management initiatives in their organisation.

For more information on the programmes, please visit <http://www.wkwsci.ntu.edu.sg/programmes/ProspectiveStudents/Pages/Prospective-Students.aspx>

Course Requirements

The Master of Mass Communication (MMC) programme allows for a credit transfer of up to 2 courses from the specified CE Master's courses up to NTU's accreditation requirement in Phase I. To successfully obtain the Master's degree, students who choose the "Coursework Only Track" are required to complete an additional 3 core courses, and 5 general electives in Phase II.

Students who choose the "Coursework + Dissertation Track" are required to complete an additional 3 core courses, 3 general electives and 1 dissertation in Phase II.

Phase I	Phase II (Coursework Only)
Credit Transfer: Up to 2 courses	Remaining number of course: At least 8
	Of the 8 courses: 3x Core courses; 5x General elective courses

The Master of Science (Knowledge Management) programme allows for a credit transfer of up to 2 courses from the specified CE Master's courses up to NTU's accreditation requirement in Phase I. To successfully complete the Master's degree, students who choose the "Coursework Only Track" are required to complete an additional 2 core courses and 6 electives in Phase II.

Students who choose the "Coursework + Dissertation Track" are required to complete an additional 2 core courses, 4 electives and 1 dissertation in Phase II.

Phase I	Phase II (Coursework Only)
Credit Transfer: Up to 2 courses	Remaining number of course: At least 8
	Of the 8 courses: 2x Core courses; 4x "A" electives; 1x "B" elective; 1x Critical Inquiry

College of Engineering

With a rich engineering heritage in the University, the College of Engineering (CoE) has contributed actively towards the University's position as the 5th Engineering & Technology University globally, in the QS World University Rankings by Subject 2018.

The College of Engineering is ranked among the top nine universities globally in research output and 5th in engineering citations and it is known for its multidisciplinary academic pursuits and research enterprises.

Its commitment to research has resulted in various breakthroughs such as the world's first multiple drug-eluting biodegradable heart stent and the world's first integrated low-power 60 Gigahertz (GHz) chipset for high-speed wireless data transfer. These achievements are accomplished through a combination of tradition of impact, resources and people. CoE draws upon its vibrant community of committed faculty, innovative research staff and bright students to create technological leadership and excellence.

CoE's reputation for nurturing well-rounded engineer leaders will continue to place the College in good stead with the industry, and in the context of the knowledge-based economy. With growing stature in education and research, the University's and the College's impact is being felt in local shores and beyond.

School of Mechanical and Aerospace Engineering

Programmes

Master of Science (Supply Chain & Logistics)

The logistics industry is one of the key service sectors driving the development of Singapore as a critical hub in the global supply chains. As globalisation drives multi-national companies to expand across the region, supply chains that Singapore based companies are part of have become even more complex, demanding a higher level of skill-set to design, analyse and manage them.

The M.Sc. (Supply Chain & Logistics) programme aims to address the needs of both the manufacturing and service sectors with an integrated and comprehensive programme in Supply Chain and Logistics, equipping graduates with just the right set of skills to manage end-to-end order fulfillment, including procurement and inventory management. The programme also provides the candidates an appreciation of the role logistics functions, such as distribution, warehousing and transportation, play in facilitating the supply chain. The programme is tailored for practicing engineers, logisticians and information technologists employed (or seeking employment) in manufacturing or logistics sectors. The programme relies intensively on case studies and hands-on modeling and game plays to support in-class learning.

Master of Science (Systems and Project Management)

Globally, there is a constant demand for experienced professionals and managers who are capable of planning, managing and delivering complex projects and programmes for the businesses, industries and government. MSc (Systems and Project Management) provides a quality

educational qualification for those who have ambition in gaining career break and advancement and with global mobility in systems and project management. Singapore has achieved high level of project management maturity in large-scale systems implementation in industrial and infrastructural development. These project achievements and experiences are of international relevance and status, and provide valuable lessons and context for the programme in terms of case teaching.

The core courses of the SPM programme cover and give emphasis to the interdependence of the twin competences of Systems Engineering and Project Management with underlying systems thinking. Teaching of these courses encourages participants to develop innovative ways of thinking about complexity and complex project management. Many of our MSc (SPM) graduates from earlier batches have since achieved significant career advancement.

M.Sc. (Mechanical Engineering)

Mechanical Engineering has been an important discipline in every industry. With the advent of the computer and information technology, mechanical engineering is now playing an even more important role in the development of many new areas, such as life science and micro/ nano technologies. The breakthrough in these new technologies is often seen to rely on the support of mechanical engineering. Thus, there is an increasing demand for R&D engineers and managers who have strong background in mechanical engineering.

This M.Sc. programme is specifically designed for graduate engineers, R&D engineers, scientists, researchers, and other related professionals who wish to equip themselves with more advanced knowledge in mechanical engineering to face the ever changing world.

For more information on the programmes, please visit [http://www.mae.ntu.edu.sg/Programmes/CurrentStudents/Graduate\(Coursework\)/MScProgrammes/Pages/default.aspx](http://www.mae.ntu.edu.sg/Programmes/CurrentStudents/Graduate(Coursework)/MScProgrammes/Pages/default.aspx)

Course Requirements

The Master of Science (Supply Chain and Logistics) programme allows for a credit transfer of up to 2 courses from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase I. To successfully obtain the Master's degree, students are required to complete an additional 4 core courses, 3 electives and an Independent Study Module in Phase II. Note that the course offered may change from semester to semester.

Phase I	Phase II
Credit Transfer: Up to 2 courses	Remaining number of course: At least 7+1 ISM
	Of the 7 courses: 4x Core courses; 3x Elective courses

The Master of Science (Systems and Project Management) programme allows for a credit transfer of 1 course from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase I. To successfully obtain the Master's degree, students are required to complete an additional 4 core courses, 4 electives and an Independent Study Module in Phase II. Note that the courses offered may change from semester to semester.

Phase I	Phase II
Credit Transfer: 1 course	Remaining number of course: 8+1 ISM
	Of the 8 courses: 4x Core courses; 4x Elective courses

The Master of Science (Mechanical Engineering) programme allows for a credit transfer of 1 course from the specified CE Master's course completed up to NTU's accreditation requirement in Phase 1. To successfully obtain the Master's degree, students are required to complete an additional 4 core courses and 4 electives and an Independent Study Module in Phase II. Note that the courses offered may change from semester to semester.

Phase I	Phase II
Credit Transfer: 1 course	Remaining number of course: 8+1 ISM
	Of the 8 courses: 4x Core courses; 4x Elective courses

National Institute of Education

The National Institute of Education (NIE) is Singapore's national teacher education institute with a key role in shaping Singapore's education. Established in July 1991 through the amalgamation of the Institute of Education and the College of Physical Education, NIE is an autonomous institute of the Nanyang Technological University (NTU).

Through the years, NIE has positioned itself as the leader in teacher education in Singapore by producing high quality graduates who form the foundation for a successful education system. NIE is committed to its vision of being an institute of distinction and mission to excel in teacher education and education research.

Programme

Master of Arts (Instructional Design and Technology)

The M.A. (Instructional Design and Technology) programme is designed for education and training professionals working in schools, universities, polytechnics, businesses, industries and e-learning environments. It is concerned with the application, development and management of information technologies, including e-learning, for solving instructional problems in school and corporate learning environments.

Participants typically include school HOD IT, corporate trainers, instructional software developers, managers of e-learning environments and other educational and training professionals. Participants in the programme will learn and practise solving real-world instructional and performance problems employing a variety of learning modalities.

For more information on the programme, please visit www.nie.edu.sg/maidt

Master of Arts (Educational Management)

The Master of Arts (Educational Management) programme is designed for individuals who hold management positions in the education service: principals, vice-principals, heads of department and teachers with positions of responsibility and MOE officers.

This programme pursues three broad aims:

- (i) to enable aspiring leaders in education to become more informed about critical issues in educational management, and thus to apply intellectual approaches to their work
- (ii) to help them cope positively and effectively with the management challenges that are currently impacting on education
- (iii) to enable them to acquire a recognised and valued postgraduate award.

For more information on the programme, please visit www.nie.edu.sg/maem

Course Requirements

The Master of Arts (Instructional Design and Technology) programme allows for a credit transfer of 1 course from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase I.

Assuming successful credit transfers, there are 2 options in Phase II to successfully obtain the Master's degree.

Option 1 (Coursework): the students take 6 MAIDT courses and MID944 Methods for Data Collection and Analysis for Instructional Design Projects (2-AU).

Option 2 (Dissertation option): the students take 5 MAIDT courses and complete a dissertation (6-AU).

Phase I	Phase II (Coursework Option)
Credit Transfer: 1 course	Remaining number of course: 6 + one 2-AU course
	Of the 6 courses: 4x Core courses; 1x Specialisation Elective course; 1x Open Elective course

The Master of Arts (Educational Management) programme allows for a credit transfer that is equivalent to 1 open elective course, from the specified CE Master's courses completed up to NTU's accreditation requirement in Phase I. Assuming successful credit transfers, there are 2 options in Phase II to successfully obtain the Master's degree.

Option 1 (Coursework): the students take 6 MAEM courses and a Critical Inquiry course (2-AU).

Option 2 (Dissertation option): the students take 5 MAEM courses and complete a dissertation (6-AU).

Phase I	Phase II (Coursework Option)
Credit Transfer: 1 course	Remaining number of course: 6+1 Critical Inquiry course
	Of the 6 courses: 1x Core course; 5x Elective courses

Those selecting the coursework-only option will take a special course titled MEM 932 Critical Inquiry as one of the courses, designed to act as a capstone experience for the programme.

Singapore University of Social Sciences

The Singapore University of Social Sciences (SUSS) is one of Singapore's six national universities and its mission is to provide lifelong education that equips learners to serve society. SUSS provides an applied education that targets both fresh school leavers and adult learners, with a focus on the social sciences.

Regular Programmes

Students who opt to enrol into a regular SUSS programme may apply for any one of the existing undergraduate programmes offered by the five schools in SUSS.

Major-Minor Programme (Minor in Military Studies)

Students who opt for these programmes will major in one of the selected SUSS's disciplines, with a minor in Military Studies. This includes the NTU accredited CE Master's courses conducted during CSC/CSC(E) Phase I and Security Studies (SEC) courses offered by SUSS.

Major Discipline (complete 80 cu) (To select 1 of the discipline under any of the 4 Schools -please visit the SUSS's website to view the available disciplines)	Minor Discipline (select 40 cu) (Military Studies)	
School of Humanities and Behavioural Sciences	Security Studies Courses (40 cu) <ul style="list-style-type: none"> Theory and Practice in Security Studies Government and Security Economic Security and Culture Security and Technology War, Peace, Crime & Punishment in Southeast Asia Terrorism & Society: A Survey of Terrorist Groups in Modernity Terrorism and Psychology: The Mind of the Terrorist Non-traditional Security 	Command and Staff College Courses (40 cu Course Recognition) <p>40th Cohort onwards (2009 onwards)</p> <ul style="list-style-type: none"> The Analysis of Defence and Security Policies Campaign & War Studies Leadership In Context Leadership Development in Organisation Military Technology Maritime Security Studies Security Studies Systems and Project Management <p><i>Please note that students who wish to have their SAF courses recognised by SUSS must obtain verification from SAF that they have satisfactorily completed and passed all the assessment and assignments of the above courses.</i></p>
School of Business		
School of Science and Technology	Professional Military Education Courses (30 cu Course Recognition) <ul style="list-style-type: none"> Military Technology Military Studies Military Leadership + 10 cu from Security Studies Courses	OR
S R Nathan School of Human Development		

For more information on the programme, please visit www.suss.edu.sg

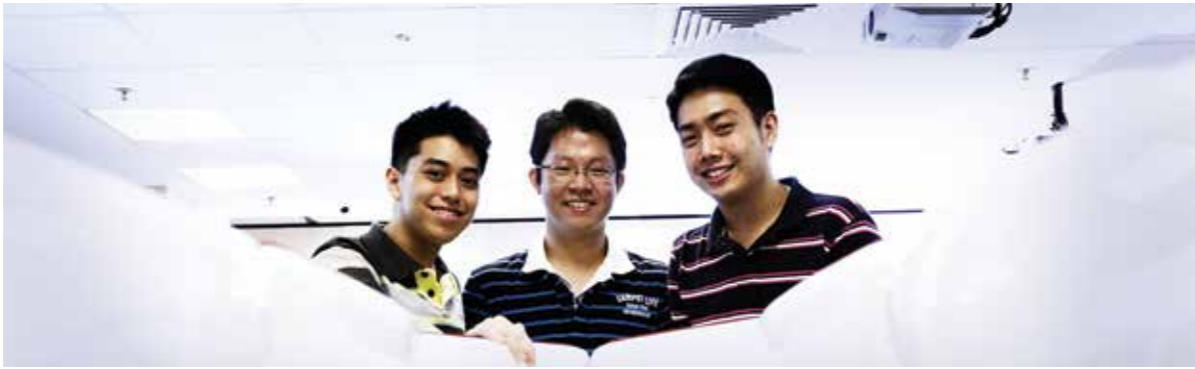

Course Requirements

For programmes offered at the basic level, students are required to complete a total of 130 cu to graduate, inclusive of 10 cu of University Core courses.

The SUSS – SAF Programme allows for credit recognition of 40cu from the CE Master's courses completed up to NTU's accreditation requirements in Phase I. To successfully obtain the Bachelor's degree (minor in Military Studies), students are required to complete 80cu from the Major Discipline and another 10cu from the University core courses.

Phase I	Phase II
Course Recognition: Up to 40 cu	Remaining number of cu: At least 90 cu
	Out of the 90 cu: Major Discipline - 80 cu University Core courses - 10 cu

Admissions

Entry Requirements

SUSS Undergraduate Programme

- GCE 'A' level with two passes (prior to 2006) or two H2 passes (from 2006), or local Polytechnic Diploma or International Baccalaureate (IB) Diploma or NUS High School Diploma.
- Two years of work experience or is currently employed on a full-time basis (National Service is included).
- 21 years old and above.

NTU Master's Programme

- A Bachelor's degree from a recognised university. This degree must be relevant to the applicant's chosen NTU Master's programme. For example, a basic degree in arts will not be suitable for a Master's Degree in the field of engineering. NTU will review applications without relevant bachelor degrees on a case-by-case basis.
- A Cumulative Grade Point Average (CGPA) of 2.5 or more for the combination of CE Master's courses completed in Phase I (subject to the required minimum number of courses to be completed).
- For admission to the NBS's M.B.A programme, a good GMAT score (600 and above) is required.

Online Application Window

NTU Colleges/Schools	Programmes	Online Application Window	AY 2019/20 Admission (Full-time programme for the 50th CSC cohort, immediately after CSC)	For CSC/CSC(E) cohorts graduating in 2019: AY2020/21 Admission* (Full-time and Part-time)
RSIS	M.Sc. (Strategic Studies)	January – March	November 2019 (Trimester 2)	July 2020 (Trimester 1)
	M.Sc. (International Relations)		Not Available	
	M.Sc. (Asian Studies)		Not Available	
	M.Sc. (International Political Economy)		Not Available
