

## **Registration Instructions for ADM Students (Admission Year 2018 to 2020)**

All ADM students register for courses using the Student Automated Registration System (STARS). Students will be granted access to STARS based on your **Registration Study Year** (i.e study year in Semester 1 of AY2019-20). Students are to check your personalized date and time for registration through [StudentLink](#).

The registration period will be per university-designated times and will follow the standard university process and procedures. Please refer to the following website for university course registration information and class schedule:

<http://www.ntu.edu.sg/Services/Academic/undergraduates/Course%20Registration/Pages/default.aspx>

Class schedule for courses offered by ADM can be found in ADM website at attached link.

<http://www.adm.ntu.edu.sg/CurrentADM/Undergraduate/Pages/ClassSchedules.aspx>

**NOTE: Any changes to the class schedule will be notified via the School's website and if necessary, through students' NTU email account.**

All Major Core Courses will have places reserved for students in the major area. Students in each major area are assured a place in their Major's Core Courses. **Each course will be capped at a number of places that can be accommodated by the instructor and facilities.**

Following the registration of core courses by students in the major area, if there are remaining vacancies in the Major Core Courses, these places are open to any ADM student to enroll as a Major Prescribed Elective **subject to meeting the prerequisite** of the course.

\* Student must have the appropriate **prerequisite** to enroll in any ADM course.

The process for enrolling will follow the standard university process. In NTU, a student in Year Four is given priority to register for elective courses first, followed by Year Three and Year Two. This ensures that students closer to graduation are able to enroll in the courses necessary to complete their degree programme requirements in four years.

Please refer to the **Curriculum and AUs distribution** on these ADM websites:

### **Registration of Courses and Academic Advisement**

The academic advisement session takes place in the last few weeks of every semester. The academic advisement session takes place at the ADM Auditorium where the Associate Chair (Academic) and Area Coordinators will

brief students on the courses available in the next semester. Students will also be advised on the complementary and inter-disciplinary courses beneficial to their Area of Major. Faculty members will also be on hand to answer any questions students may have about courses to read for the following semester. Students are highly encouraged to attend the academic advisement session specially arranged for them.

Students are required to register for courses through the Student Automated Registration System (STARS) during the course registration period specified by the university's Office of Academic Service (**Please look out for the email notice sent by the Office of Academic Services to all students**).

It is the responsibility of each student to complete the registration procedure in a timely manner. For additional information, students may contact Associate Professor Peer Sathikh, Associate Chair (Academic) (Tel: 6514-1058 or email: [vd-adm-acad@ntu.edu.sg](mailto:vd-adm-acad@ntu.edu.sg)) or Mrs Julie Lim, Assistant Director (Undergraduate Programmes) (Tel: 6790-6667 or email: [bnlim@ntu.edu.sg](mailto:bnlim@ntu.edu.sg)).

### **Academic Overload**

The normal academic load is 15-18AUs. Year Two students onwards may auto overload by one course (3 AUs) per semester without seeking the Associate Chair (Academic)'s approval. Those who do not wish to overload may do a normal academic load of 6 courses per semester. **Students are advised to seriously consider if they can cope with the course workload before overloading. Students are not allowed to de-register courses after add/drop period.**

### **Minors**
