

LET THE SCBE FAMILY EMBARK ON THIS
**EXCITING JOURNEY
WITH YOU**

Why SCBE?

Studying for MEng or PhD in SCBE can be a very satisfying and exciting experience; it also means dedication and hard work. The graduate curriculum blends core courses, such as molecular biophysics, bionanotechnology, with specialised electives in biomaterials, biomechanics, biomedical systems etc.

Graduate studies in research programmes provides an opportunity for you to seek new knowledge, explore new research grounds and create new ideas.

**SCBE offers two postgraduate
programmes by research:**

Doctor of
Philosophy (PhD)

Master of
Engineering (MEng)
