Abstract

The speaker will share his experience as a young engineer, and his journey to becoming an entrepreneur, including the building of his company from less than 10 headcount to more than 200 with an annual turnover of 100 million today. Next, he will share his insights on the impact of Covid 19 pandemic to the construction industry and how as the President of SCAL, the steps SCAL has taken to help their members navigate through the difficult times.
