Medication and Appointment Adherence System

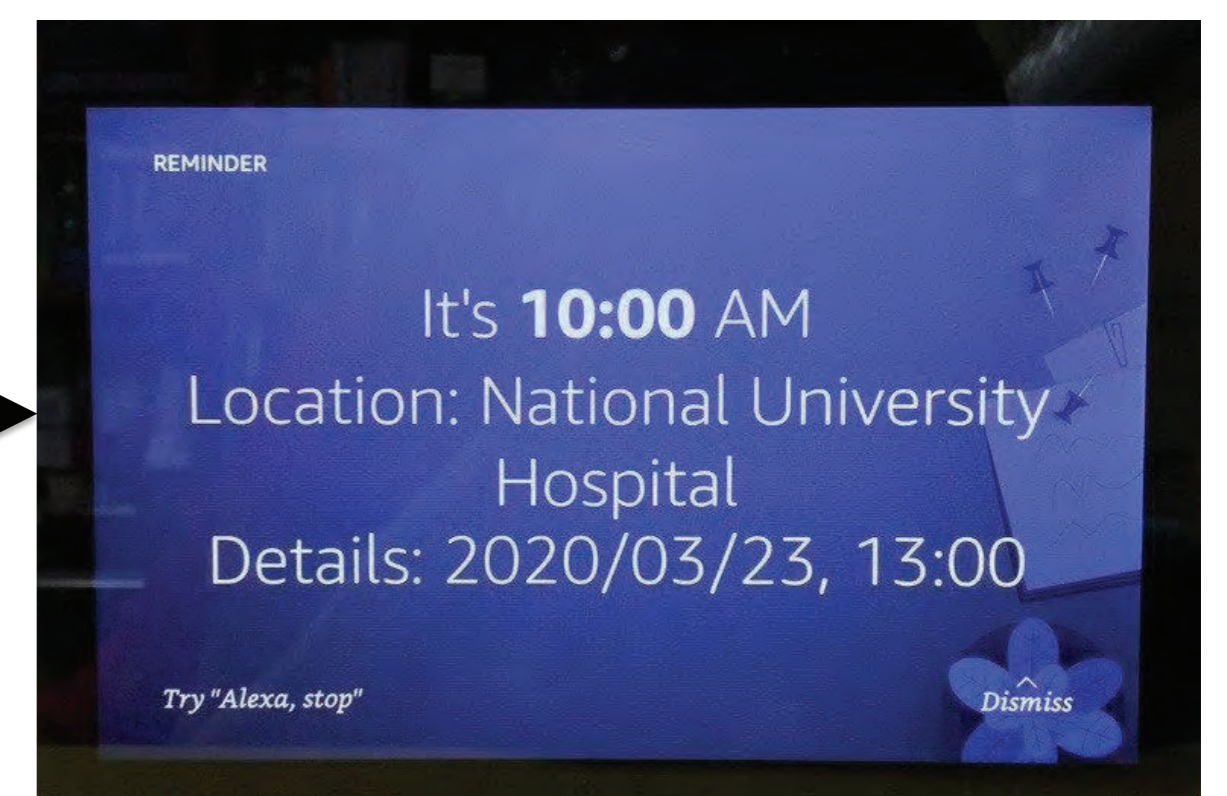

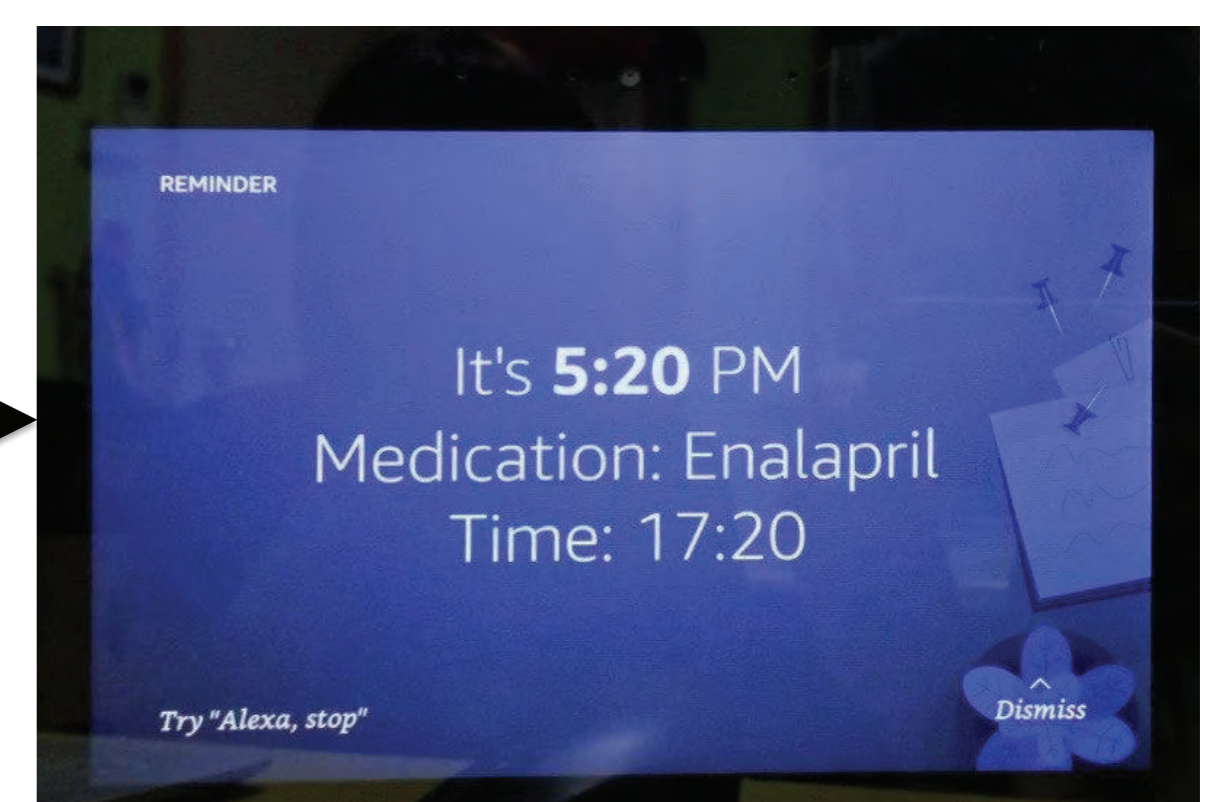

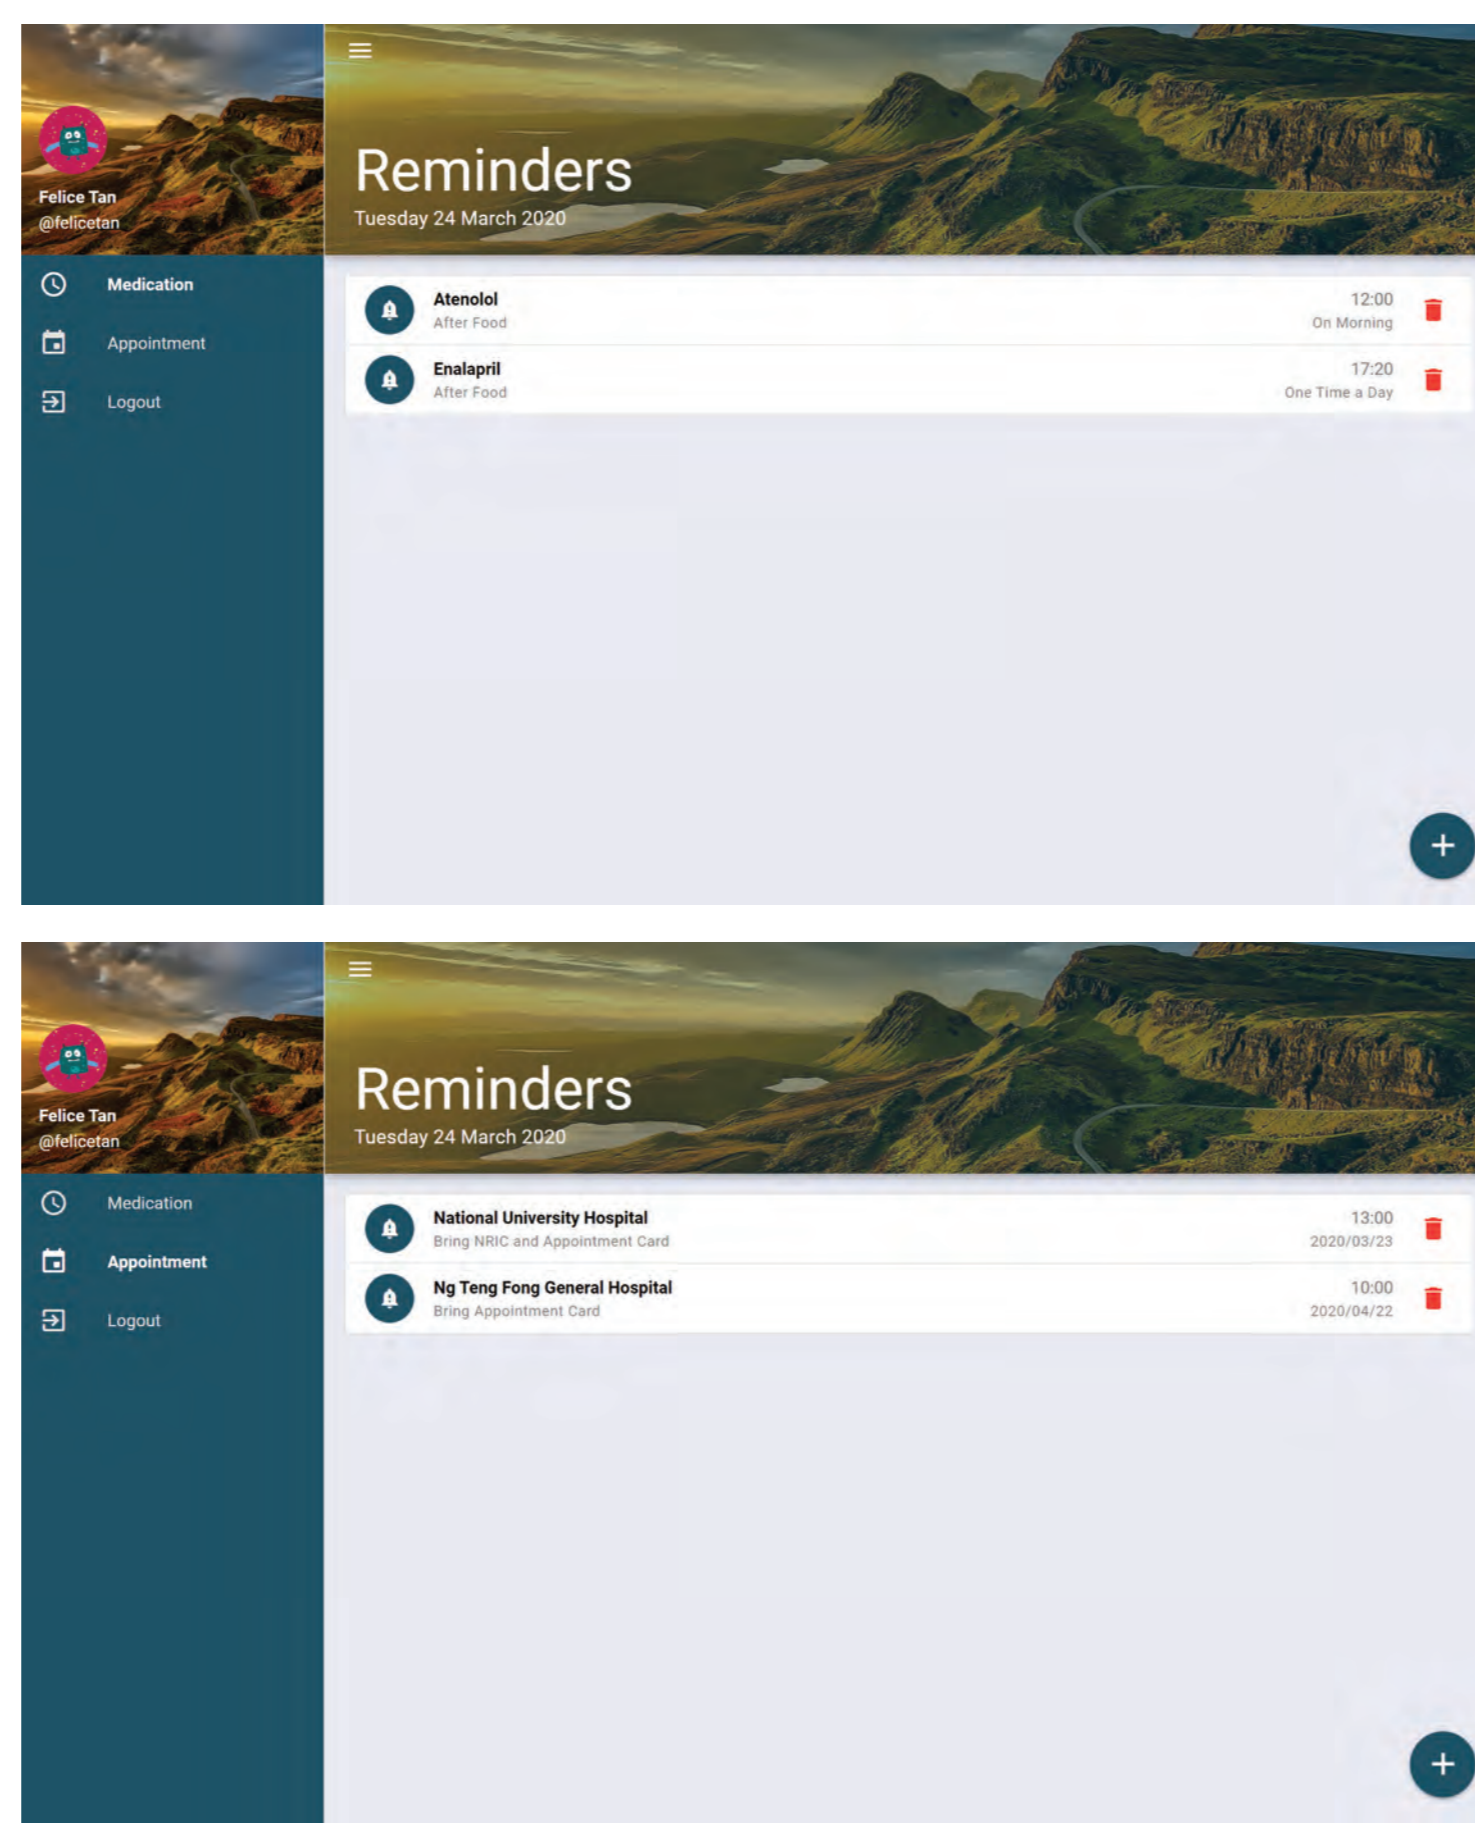

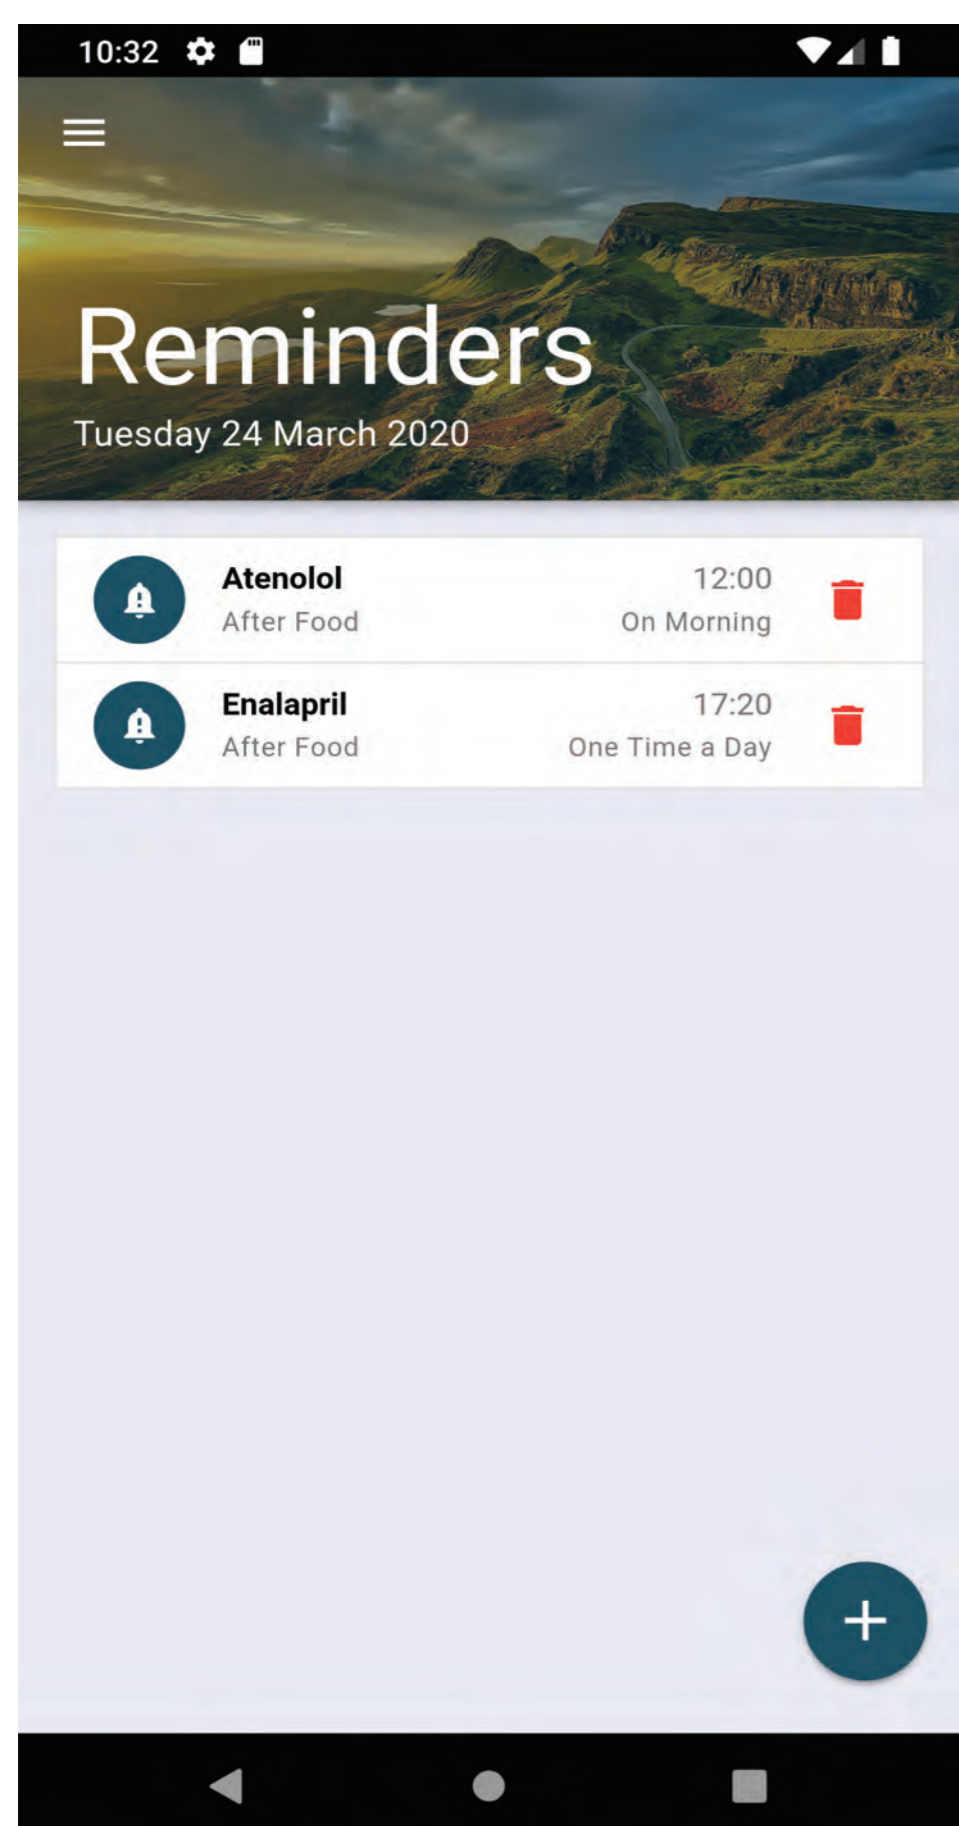

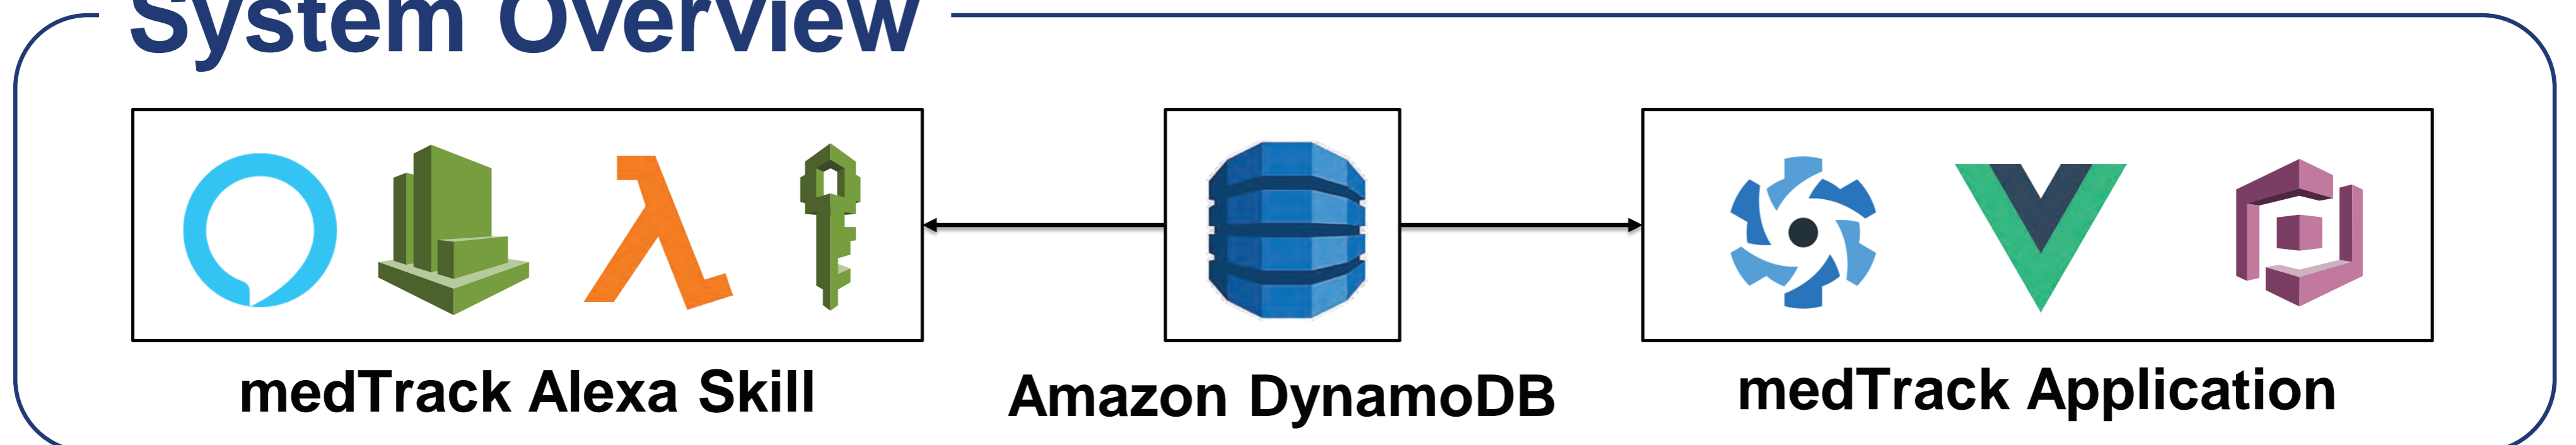

Student: Felice Tan Yu Ting

Supervisor: Dr Tuan Le Mau (A*STAR), Dr Quek Boon Kiat (A*STAR), Dr Li Fang (NTU)

Project Objectives:

Medication and appointment nonadherence has been highlighted as a common and costly problem in the healthcare industry today. Targeted at chronic disease patients, the aim of this project is to develop a medication and appointment adherence system which will help these patients comply with their medication regimen through reminders.
