

HL1003

SURVEY 2

GRAHAM MATTHEWS

OVERVIEW

Survey of English Literature II provides an introduction to the most influential and important literary works from the Romantic period, the Victorian age, and the Twentieth Century. The course combines close reading of primary texts alongside detailed investigation into their historical and cultural contexts. The study of canonical texts alongside major film adaptations offers insight into the ways in which literature has developed and defined our understanding of culture and society in the world today.

Course Text: Norton Anthology of English Literature, 10th edn. Vol. D,E,F
