

## **HW0188 Effective Communication**

[Tutorials: 24 hours; Pre-requisite: HW0001 (co-requisite); Academic Units: 2.0]

### **Learning Objectives**

This course aims to enable students to master important elements of engineering communication and academic literacy skills.

### **Content**

This course covers basic academic literacy skills as well as written and oral communication skills for the field of engineering.

### **Learning Outcomes**

Upon successful completion of this course, the students should be able to:

- (i) Produce short academic prose relevant to the field
- (ii) Write an audience-specific short technical proposal/report, and
- (iii) Present key topics in engineering

### **Textbooks/References**

- (i) Instead of a textbook, students will learn using discipline-specific course materials developed by the Language and Communication Centre.
- (ii) Reference:  
Mike Markel, *Technical Communication*, 10th Edition, Bedford/St. Martin's, 2012.
