Course Code	PH4704 and PH4703		
Course Title	Overseas Entrepreneurship Programme (6-month)		
Pre-requisites	None		
No of AUs	PH4704 (11AU), PH4703 (10AU)		
Contact Hours	Minimum 8 hours per day, 40 hours per week		
Proposal Date			

Course Aims

OEP aims to give entrepreneurially-inclined students opportunities to intern in overseas startups so as to expose them to an overseas startup ecosystem. The experience allows students to interact with startup founders in the host companies, as well as key stakeholders in the startup ecosystem such as venture capital firms, angel investors, mentors and entrepreneurs. Students are required to submit a business proposal at the end of the internship, and would receive mentorship and advice from the OEP team and Nanyang Technopreneurship Center (OEP's parent NTU department).

OEP sends students to intern with companies in USA, China, Germany, Denmark, Australia, ASEAN, as well as Singapore.

Intended Learning Outcomes (ILO)

By the end of this course, students would be able to:

1. Identify market niche and value proposition of a business proposal
2. Perform market research and analysis
3. Select business and revenue model that is appropriate for a startup
4. Make business decisions based on an understanding of the startup ecosystem
5. Organise or participate in an in-country entrepreneurship event where they can engage with stakeholders in the startup ecosystem, or produce a marketing video that showcase the vibrancy of their internship city
6. Craft a business proposal that meets the requirements and addresses the concerns of prospective investors

For the Business Proposal, the OEP team will provide feedback on how it can be improved, so that it stands a higher chance of success if implemented.

Learning and Teaching Approach

Approach	How does this approach support students in achieving the learning outcomes?
On the job training	Students will be exposed to different aspects of a startup including business development, marketing, finance and sales pitch. They will be mentored by one of the founders or upper management to understand the rationale behind any decisions made.

Reading and References

Self-directed reading based in assigned topics.

Course Policies and Student Responsibilities

Students are required to abide by both the University Code of Conduct and the Student Code of Conduct. The Codes provide information on the responsibilities of all NTU students, as well as examples of misconduct and details about how students can report suspected misconduct. The university also has the Student Mental Health Policy. The Policy states the University's commitment to providing a supportive environment for the holistic development of students, including the improvement of mental health and wellbeing. These policies and codes concerning students can be found in the following link.

Academic Integrity

Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values.

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion and cheating. If you are uncertain of the definitions of any of these terms, you should go to the [academic integrity website](#) for more information. Consult your instructor(s) if you need any clarification about the requirements of academic integrity in the course.

Appendix 1: Assessment Criteria for EG3902

Student Assessment

The assessment will be handled by OEP staff, faculty supervisor and internship supervisor (from the start-up company). Assessment is made quantifiable. The student has to pass all components in all 3 assessment forms in order to successfully complete/ pass the OEP. For unusual cases such as when a student fails a component or the supervisor is unreasonably strict, the School/ OEP staff can intervene to moderate. The OEP team will collate and compile the assessment forms of all assessors and convey the overall pass or fail grade to the respective schools for mark entry.

a. OEP staff assessment (please refer to Annex A-1): Assessment will focus on the following components:

i. Submission of 2 progress reports including 2 entrepreneurial-focused articles

This component is graded based on the article's relevancy to entrepreneurship and the learning points indicated by the student. Each article submission corresponds with each progress report that the student spends in the 6-month OEP.

Mode of communication: Student to email reports to assigned OEP staff.

ii. Organising/Participating in entrepreneurship events or produce one marketing video

The event could be of a networking nature and/or that of a workshop. The focus of this component is to immerse the student to the local start-up community to gain exposure, experience and to extend the student's network.

The marketing video will be used for publicity of the OEP. The focus of this component is to equip students with the skills required for marketing, which will be useful when they start their own business. The video can be produced at any time through the duration of the OEP and be jointly completed by all the students in the respective countries.

Mode of communication: Student to email proposal of event/ video with objectives and agenda to seek approval from OEP staff. A post-event report or video will be sent to assigned OEP staff.

iii. Business proposal

The student will produce a business proposal at the end of the internship and this component will be assessed based on the scope of the business proposal.

Mode of communication: Student to email business proposal to assigned OEP staff.

b. Faculty supervisor assessment (please refer to Annex A-2): Assessment will focus on the following components:

i. Submission of internship progress report

Faculty supervisor will assess based on the following:

- Report is clear, concise and relevant
- Clear role in the internship company
- Shows skills development in the course of the internship period

Mode of communication: Student to email report to faculty supervisor.

ii. Oral interview

This will be done on twice during the internship (3rd month and 6th month), after submission of the progress report. This section is left open-ended to allow the faculty supervisor to clarify on the written report by the student, and to check for details.

Mode of interview: The faculty and student will decide on a convenient mode of interview.

c. Internship supervisor assessment (please refer to Annex A-3): Assessment will focus on the following components:

i. Conduct

Company supervisor will assess based on the following:

- Attendance
- Personal discipline
- Initiative / motivation to learn
- Teamwork
- Quality of work produced
- Practical ability, creativity & innovation
- Work standard & ethics
- Communication ability

An open-ended “Comments” section is made available for the supervisor to provide greater details to support the above-mentioned assessment grading.

Mode of communication: OEP staff will email internship supervisor for assessment at the end of the internship.
