## GRANT CALLS / INNOVATION CHALLENGES

### Jurong Lake District Innovation Challenge

**Submission Deadline: 21 Apr 2023**

This innovation challenge calls for start-ups, private companies, and research institutes to submit proposals to address complex urban sustainability issues, including reducing carbon emissions, energy usage, waste and resources and achieving a car-lite environment.

Click [HERE](#) for more details.

### INDUSTRY COLLABORATION PROJECTS (IAF-ICP)

IAF-ICP supports Public Research Performers in strategic R&D collaborations with the industry. The aim is to foster industry-relevant public sector R&D efforts, and Public Research Performers to collaborate with the industry, with a line of sight to potential economic outcomes.

Click [HERE](#) for more details.

## TECHNOLOGY NEEDS

### Seeking Technologies to Reduce, Remove, or Separate Hydrocarbon Compounds

The technology seeker is a manufacturing company that operates a range of industrial processes to isolate and purify products from raw materials. They are looking for technologies for removing or reducing to a non-detectable (less than 1 ppm) level.

Click [HERE](#) for more details.

### Seeking Green Technologies or Processes for Manufacturing Triglycerides

Sustainability is key to this technology seeker's business, and they are interested to identify "green" / sustainable manufacturing approaches that they could adopt for producing triglycerides, preferably with fatty acid chains between C8 – C24.
