GRANT CALLS / INNOVATION CHALLENGES

The Liveability Challenge

Submission deadline: 1 April 2022

The race is on for innovative solutions to help cities accelerate decarbonisation, meet increasing demand for food, and conserve our planet's natural ecosystems! Up to S\$1 million in grant funding for project development to be won!

Click [HERE](#) for more details.

The Ocean Innovation Challenge (OIC): Call for Proposals

Submission deadline: 9 April 2022, 23:59 (CE Time)

The third OIC call focuses on Marine Protected Areas (MPA), area-based management and the Blue Economy. It seeks innovative solutions that address one or more of the following SDG 14 targets: (i) Protect and restore ecosystems, (ii) Conserve coastal and marine areas and (iii) Increase the economic benefits from sustainable use of marine resources.

TECHNOLOGY NEEDS

Simple, Consumer Friendly Ingredients

A local company looking to create new well-being snacks as well as improve the nutrition of the ingredients currently used, seeks ingredient solutions that are natural, minimally processed and are free from additives or preservatives.

Click [HERE](#) for more details.

Plant Based Ingredients with Broad Applicability

A local company seeks clean label, plant-based ingredients with authentic credentials on taste, texture, and appearance. Additionally, ingredients that are sustainable and technologies that help preserve the wholesome, natural benefits of these ingredients are also of interest.
