### Formative feedback

Formative assessment is integrated into the classroom practice to provide feedback on the learning progress to both you and teachers. All assessments in the course, even formal testing like CAs, must be formative. The feedback will be given in a prompt and informative manner with specific reference to the Intended Learning Outcomes as soon as possible during or after the learning activity.

Tools used for formative assessment and learning activity implemented in this course are:

- **Peer assessment:** You are asked to listen, take notes and give feedback on fellow your presentations and contribution to classroom and group discussion focusing on language and communication skills.
- **Presentation:** Individual /group oral feedback on the fluency, pronunciation, contents, structure, communication skills will be given to each student after the summative oral assessment.
- **Classroom Tasks:** Oral or written feedback for the tasks performed by group or individual during each class session is given to student/group.

### Learning and Teaching approach

Approach	How does this approach support you in achieving the learning outcomes?
Tutorial	Prior to the class, you will have to prepare the activity of the day using the course book and web links posted on NTULearn. The lecturer will conduct tutorials to provide more information on the topics and will facilitate the in-class discussions. You answer questions about vocabulary and grammar, thus addressing the learning outcomes 1, 2, 3, 4 and 5.
Team learning	You will work in teams to discuss and attempt grammar questions and language

	use addressing outcomes 1, 2, 3, 4 and 5.
Role Play Activities	You will acquire communication skills, confidence and creativity by using the language in an authentic way, addressing outcomes 1, 2, 3 and 5.

## Course Policies and Student Responsibilities

### (1) General

You are expected to complete all assigned pre-class and post-class activities, attend all classes punctually and take all scheduled assignments and tests by their scheduled dates. You are expected to take responsibility to follow up with course notes, assignments, and materials for any classes you have missed. In class you are expected to participate in all discussions and activities.

### (2) Absenteeism

Absence from class without a valid reason will affect your overall course grade. Valid reasons include falling sick supported by a medical certificate and participation in NTU's approved activities supported by an excuse letter from the relevant bodies. There will be no make-up opportunities for in-class activities.

You are required to submit all compulsory assignments on due dates. Please note that you will be awarded a zero grade if you do not attend any of your assessments.

In order to be eligible for a re-test you have to inform your tutor and the Malay language coordinator before the test date/time. Moreover, you need to email a digital copy of your supporting documents on the same day to the same people. Remember that these documents also have to be submitted to your school for evaluation. If they warrant an excused absence you will be granted an alternative test date. If a re-test is granted and scheduled, you have to attend the re-test on the day and time provided, otherwise you will be awarded a zero grade.

### 3. Online Assignments

You are required to review the digital materials circulated in class. The videos that support the language lessons are assessed and knowledge of language context is considered and vital part of the course

## Academic Integrity

Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values.

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion and cheating. If you are uncertain of the definitions of any of these terms, you should go to the [academic integrity website](#) for more information. Consult your instructor(s) if you need any clarification about the requirements of academic integrity in the course.
