### Formative feedback

Formative assessment is integrated into the classroom practice to provide feedback on the learning progress to both students and instructors. All assessments in the course, even formal testing like CAs, must be formative. The feedback will be given in a prompt and informative manner with specific reference to the Intended Learning Outcomes as soon as possible during or after the learning activity.

Tools used for formative assessment and learning activity implemented in this course are:

- **Written Assignment:** Individual written feedback/comments regarding vocabulary, grammar, structure and content are to be given to each of you for each non-summative writing assessment.
- **Classroom Tasks:** Oral or written feedback for the tasks performed by group or individual during each class session is given to individuals/groups.
- **Review Exercises:** Review exercises comprising vocabulary, grammar and comprehension exercises are given at the end of each unit. Written feedback and corrections are given individually for each exercise.
- **Oral Interviews:** Individual/group oral feedback on the fluency, pronunciation, contents, structure and communication skills will be given to each of you after the summative oral assessment.
- **Discussion Board:** the discussion board is used to develop and guide you with your writing skills thorough the course. You will receive feedback on your accuracy level of coherence and cohesion using the language. It also facilitates learning by allowing you to view & to respond to the work of others.

## Learning and Teaching approach

Approach	How does this approach support students in achieving the learning outcomes?
Tutorial	Prior to the class, students will have to prepare the activity of the day using the course book and web links in addition to flipped classroom materials posted on NTULearn The instructor will conduct tutorials to provide more information on the topics and will facilitate the in-class discussions.
Think-pair-share activities	You will be encouraged to participate in role-plays and debates during the tutorial to understand the topics taught. Topics will vary depending on the lesson: describing objects, indicating place and direction, shopping and bargaining, ordering Thai food, etc. You will be using documents or audiovisual materials posted on NTULearn for the flipped classroom to get prepared for the interactive activities in class.

## Course Policies and Student Responsibilities

### **(1) General**

You are expected to complete all assigned pre-class readings, viewings and activities, attend all tutorial classes punctually and take all scheduled assignments and tests by due dates. You are expected to take responsibility to follow up with course notes, assignments and course related announcements for tutorial sessions you have missed. You are expected to participate in all tutorial discussions and activities.

### **(2) Absenteeism**

Flipped classroom requires you to be in class to contribute to pair/team work. In-class activities make up a significant portion of your course grade. Absence from class without a valid reason will affect your overall course grade. Valid reasons include falling sick supported by a medical certificate and participation in NTU's approved activities supported by an excuse letter from the relevant bodies. There will be no make-up opportunities for in-class activities.

If you miss a tutorial session, you must inform your instructor via email prior to the start of the class.

### **(3) Online Discussion Board**

You are required to submit online compulsory assignments on due dates.

## Academic Integrity

Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values.

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion and cheating. If you are uncertain of the definitions of any of these terms, you should go to the [academic integrity website](#) for more information. Consult your instructor(s) if you need any clarification about the requirements of academic integrity in the course.
