

OG Department Stores – Mr Tay Tee Peng Distinguished Undergraduate Student Award (DUSA) POH Jia'En, Biological Sciences

Traditional Chinese Medicine outreach project held on 9th April 2022 at Bukit Panjang Community Club. Collaborated with NTU Chinese medicine Clinic and Singapore Chung Hwa Medical Institution (BP).

Successfully reached out to approximately 60 people in my neighbourhood. Elderly, families with children, and people of different races attended and enjoyed the event. Many feedbacked that they benefited from the sharing and would love to attend similar events in the future.

Grateful to OG Department Stores, People's Association, SCHMI(BP), and my fellow course mates for the huge support that lead to the success of this event.
