## **Call for Papers**

### **Behavioral Macroeconomics Workshop 2026**

Date: **20-21 February 2026**

Location: **Nanyang Technological University, Singapore**

We invite submissions for the Behavioral Macroeconomics Workshop 2026, which aims to bring together scholars studying how behavioral factors shape macroeconomic outcomes. The workshop provides a platform for presenting innovative theoretical, empirical, and experimental research on behavioral factors such as psychological frictions, belief distortions, or bounded rationality and their implications for macroeconomic outcomes.

We are pleased to announce the keynote speakers:

- **Christopher Roth** (University of Cologne)
- **Stephen Terry** (University of Michigan)

We welcome submissions of complete manuscripts in the field of behavioral macroeconomics. The topics of interest include, but are not limited to:

- Memory, narratives and motivated reasoning in shaping beliefs
- Attention, salience, and information frictions in economic decision-making
- Behavioral drivers of inflation expectations, asset prices, or business cycles
- Policy design under behavioral biases or bounded rationality
- Expectation formation and learning in macroeconomic settings
- News consumption and production and information inequality

The deadline for submission is **31 October 2025**. Selection notifications will be communicated by **21 November 2025**.

**Submission Link:**

Completed manuscripts can be submitted electronically via

<https://tinyurl.com/behavioralmacroworkshop2026>

If you encounter any difficulties with the submission link, please email a PDF of your paper to: [behavioralmacroworkshop@gmail.com](mailto:behavioralmacroworkshop@gmail.com)

There is no registration fee. For questions or further information, please contact the organizers at [behavioralmacroworkshop@gmail.com](mailto:behavioralmacroworkshop@gmail.com)

**Organizing Committee:**

- Te Bao (Nanyang Technological University)
- Yeow Hwee Chua (Nanyang Technological University)
- Zu Yao Hong (University of Nottingham Ningbo)
- Pei Kuang (University of Macau)
