

A year shaped together with the Research and Innovation Community

As the year draws to a close, ACSI invites you to journey with us through the key moments of the Academy to support our talents and build up the research and innovation culture.

A heartfelt thank you for joining us in our events and activities, and we look forward to seeing you in 2026!

ACSI Top ‘Save for Later’ Reads in 2025

The year in academic medicine—by the numbers.

Before we close out 2025, here’s a snapshot of what clinician scientists & innovators read, referenced, and returned to most this year. From practice-changing trials to translational breakthroughs and digital health innovation, these topics shaped conversations across research meetings, grant discussions, and academic forums.

Click on the Titles below for the full article.

1 Eleven Clinical Trials that Will Shape Medicine in 2026

A major Nature Medicine year-in-review highlighting trials that defined 2025’s research agenda.

2 Notable Advances 2025 — Implementation & Translational Outcomes

A curated look at 2025 research progress from Nature Medicine.

3 Top 5 Clinical Trials Shaping Medicine in 2025

A curated list of trials influencing integrated care, gene therapy, base editing, and more.

4 JAMA High-Impact Clinical Content & Research of 2025

Recent clinically relevant research and editor’s selections from JAMA.

5 Translational Research Overview & Trends

A resource page with translational science topics that contextualise many 2025 studies.

What This Tells Us

In 2025, clinician scientists & innovators didn’t just read more—they read with purpose.

- More innovation, grounded in clinical need
- More focus on impact, implementation, and outcomes
- Research that moves faster into practice, with stronger cross-disciplinary collaboration.

As we head into 2026, these insights continue to shape how our clinician scientists & innovators discover, translate, and deliver better care.

ACSI's Journey Continues: New Leadership, Shared Vision

ACSI is pleased to welcome its new leadership team. As we embark on this new chapter, we extend our deepest appreciation to all who have contributed to ACSI's journey since its inception in 2023.

Our collective vision, dedication, and efforts have successfully established ACSI as a cornerstone of talent development across NHG Health & LKCMedicine, creating a conducive ecosystem for clinician scientists and innovators to flourish. We look forward to continued growth and impact under this new leadership.
