Watch it on **YouTube:** https://youtube.com/playlist?list=PLxiM-ANcLa9L_IAKBZal35ElgVvbaO9S1

EVENTS WITH NISTH FELLOWS

19 February 2021; 4:00 PM – 5:30 PM
Tracing Community Disquiet in the Age of COVID-19, highlights how the proliferation of surveillance technology during the pandemic has resulted in a myriad of responses from the public. Join our NISTH Fellows and panelists, Assoc Prof Hallam Stevens and Asst Prof Monamie Bhadra Haines as they trace the different sources of public disquiet related to the technology deployed and its accompanying control responses; including data collection/use, woes surrounding current tech,and what the 'new normal' will look like.
**Register at: Here**

22-26 February 2021
TNOC Festival is a virtual festival that pushes boundaries to radically imagine our cities for the future. Spanning over 5 days, across 5 regional time zones & in multiple languages, the festival focuses on facilitating transdisciplinary dialogue, small group workshops, arts engagement, and fostering a collaborative spirit around solutions for our urban futures. It is produced by The Nature of Cities and curated for ASIA, by Devansh Jain (ASE's Liveable Cities Lab) and headed by Asst Prof Perrine Hamel (NISTH Fellow).
More Information: www.tnoc-festival.com; Session submission (Proposals accepted until Feb 5th): https://tnocfestival2021cfp.hubb.me/ **Register here:** https://cvent.me/bO1nm5

GRANT CALLS

For assistance in identifying research partners, email us at NISTH-research@ntu.edu.sg

Healthy Longevity Global Grand Challenge - 08 Mar 2021
This is a National Medical Research Council (NMRC), Singapore's Competitive Research Grant. It was founded by the United States National Academy of Medicine (NAM), and offers opportunities for innovators, scientists, and entrepreneurs to catalyse breakthrough discoveries and innovations that could leapfrog existing barriers and jumpstart new solutions, thereby propelling the field of ageing research and improving the health of persons as they age.

AIR-NISTH AI for Social Good Research Grant - 15 March 2020, 5:00 PM

This grant is co-funded by Artificial Intelligence Research Institute (AI.R), NISTH and CoHASS at NTU. It seeks interdisciplinary teams to work on AI applied for "social good". This includes (but not limited to) novel applications of AI tools to new domains of humanitarian or social importance, investigations that promote the ethical, fair, accountable or responsible, or research that aims to better understand how AI systems may be regulated, governed, or deployed in "socially responsible" ways.

MOE AcRF Tier 2_August 2021 Grant Call Proposal submission for internal review - 1 Feb – 16 April 2021

The MOE AcRF Tier 2 call is for the submission of proposals for NTU's internal review and shortlisting. Submissions to MOE will be conducted through the Integrated Grant Management System (IGMS; https://researchgrant.gov.sg). All PIs and Co-PIs are advised to register themselves with a valid IGMS account. IGMS accounts must be updated with a valid ORCID ID (PI can register for one at https://orcid.org/ if they do not have one) for successful grant application.
