Minglee YONG is an Assistant Professor at the National Institute of Education (NIE). She is a practicing clinician as well as a researcher. Her research interests are in the areas of developmental psychopathology and psychiatric epidemiology. She has worked on research projects that study the emergence of psychopathology as well as the effectiveness of prevention programs to build resilience in youth within the multitier system of support in schools. Another area of her interest is to study the pattern of mental health services utilization in Singapore.

#DYK
- Dr Yong is a licensed psychologist (USA) and registered psychologist (Singapore) specializing in child and adolescent mental health.
- Dr. Yong previously worked as an educational psychologist and school teacher in Singapore.

#nithreads: Prof Yong’s latest publications include:
- A Qualitative Study about Engagement in a School-based Prevention Programme for Secondary School Students
- University Students Adjusting to COVID-19 Stressors: Exploratory and Confirmatory Factor Analyses of the COVID-19 Stressors Questionnaire
- Implementation of a real-time, data-driven online Epidemic Calculator for tracking the spread of COVID-19 in Singapore and other countries

EVENTS WITH NISTH IAB/FELLOWS/PARTNERS

25 May 2022; 10:00 AM – 12:00 PM; Venue: NIE LT11
International Network of Educational Institutes (INEI) Talk and Panel Discussion 2022, is hosted by NIE at NTU. NISTH Director and Fellow, Prof Vanessa Evers, will be giving the keynote address on, ‘Innovating Education through AI and Robotics: a Student/Teacher-Centred Approach’. In her presentation, Prof Evers, will discuss projects in which we created robotic future technology, how we went about designing integrated AI driven robots that were envisioned to operate in everyday educational environments and how we studied the impact of these controversial technologies on people’s lives.
Register: Here

27 May 2022; 12.00 PM - 01.00 PM
ARISE May Webinar 2022: Why should one be a health coach? And what does it take to become one? Health coaching represents a paradigm shift. It aims to change the phenomenon of “outsourcing health management” to doctors and healthcare. In this talk, NISTH Fellow Prof Josip Car, will highlight the potential of health coaching in our society as a vehicle for helping people achieve better wellness and health on the population level, how digital technology can help make it possible, and what it takes to create a conducive environment for coaching and healthy lifestyle to become a fundamental skill of all.
