Food for Thought: Is Food Security Imperative?

Responding to the Climate Crisis: Together, We Can Make a Difference!
Our planet is facing an urgent crisis – the Climate Crisis. The consequences of climate change are becoming more evident with each passing day, from extreme weather events to rising sea levels. But don't despair! There is hope and a way forward.

Listen to #nisthfellow Prof Benjamin Horton, an outspoken advocate for addressing climate change on a global scale, as he shares his journey thus far and the urgency with which we must respond!!

Hear all about it on our YouTube or Podcast channel.

DTC Research Grant Call is open for submission from

DEADLINE: 30 August 2023, 5 pm (SG Time)

The DTC Call for Trust Tech Research Excellence ("DTC Research Grant Call") is a competitive research funding initiative that seeks to support research projects that advances the science of trust technologies across Singapore-based Institutes of Higher Learning (IHLs) and Research Institutes (RIs). DTC invites proposals that have great potential to:

Advance the science of trust technologies, and
Partner industry to explore and solve systemic real-world problems that once solved, can be scaled for other players in the sector or industry.

Good Governance for the Common Good

25-26 August 2023

CALL FOR PAPERS
Abstract submission 15 May 2023

The two-day conference, held in physical form at NTU, is co-organised with the Lien Ying Chow Legacy Fellowship, International Institute of Administrative Sciences, Asian Association for Public Administration, Stratagem Group, and Civil Service College, Singapore. It seeks to focus on answering the broad lines of enquiries on governance, from global and comparative perspectives.
