NISTH NEWS & EVENTS
Director's message

Assoc Prof Sulfi Kar AMIR

Sulfi Kar Amir is an Associate Professor of Science, Technology, and Society, Sociology Programme at the School of Social Sciences at NTU. He is the Acting Director of the NTU Institute of Science and Technology for Humanity (NISTH).

His expertise lies in Science and Technology Studies (STS), Technological Polities, Development and Globalization, Risk and Disaster, Resilience, City and Infrastructure Studies.

Dear NISTH fellows, colleagues, and friends,

Time does fly. It is the third month of the year of 2023. It is the fourth month of my leadership in this institute and I have never been more excited. In the past three months, many things have happened at NISTH and we have been exhilarated by the meetings, events, and collaborations. The most important one is of course the Young Global Leaders (YGL) Programme that went very well. I would like to thank my colleague Asst Prof. Andrew Prahl for being an excellent programme director of YGL Singapore. 35 participants from different countries came to NTU to learn about our research, projects, and laboratories. There were all very excited and impressed by what they saw in our campus, but also at the government facilities and infrastructures around the country. Potential collaborations with some participants
The 2023 March issue of the NISTH newsletter is now out! See what we have been up to and learn about all the happenings at NISTH over the last few months, from events to webinars to distinguished lectures - the details are all there...
