

Master of Arts (Applied Psychology)

This programme is designed to provide theoretical knowledge and research insights as well as practical skills to interested individuals who have the pre-requisite qualifications to train as specialists in the field of Educational Psychology or Counselling Psychology. It provides specialist training as an Educational Psychologist or a Counselling Psychologist. It also provides graduates with training towards becoming a Registered Psychologist in Singapore.

Target Audience

Associate Psychologists, counsellors/paracounsellors, social workers and educators who are motivated to acquire knowledge and skills in the field of psychological service.

Entry Requirement

- A good Bachelor's degree preferably with honors, from a reputable university.
- Preference will be given to those with a first degree in psychology, at least two years of relevant work experience and who are able to pursue the programme full time.

For international applicants, more information on the entry requirements can be found [here](#).

As the MAAP programme is highly competitive, only applicants who meet the minimum entry requirement will be considered for admission.

Period of Candidature

Full-time 2-3 years

Part-time 2-4 years

Structure

The programme comprises 42 Academic Units (AUs) and offers two options:

- Coursework with Dissertation Route

- Coursework Only Route

Testimonials

“Joining this programme, specialising in Counselling Psychology, has been a fulfilling journey that allowed me to grow personally and professionally and set the foundation for me to become a registered psychologist in Singapore. The programme provides both breadth and depth in applied psychology. The practicum aspect of the programme provided me with the invaluable experience of having exposure and intense supervision to develop my skills and ability to connect therapeutically with others.”

Tang Pei Wen June, Singapore
Class of 2017

“Being a competent Psychologist involves being both a practitioner as well as a scientist. Hence, I was looking for a programme that emphasised coursework, practical training and research. Furthermore, I wanted a programme that provided intensive training in psychological testing. The rigorous and holistic structure of the Master of Arts (Applied Psychology) with a specialisation in Counselling Psychology programme allowed me to achieve both of these objectives.”

Vimallan Manokara, Singapore
Class of 2017
