

Master of Education (Educational Assessment)

This specialisation provides in-depth knowledge and understanding of assessment theories and practices. Individuals will be equipped to take on leadership roles in assessment at their organisations. No prerequisite knowledge in statistics is required. The requisite knowledge will be taught in the programme.

Target Audience

Educators and university graduates with a background in education who wish to advance their knowledge and skills in areas of assessment and evaluation methods.

Entry Requirement

- A good Bachelor's degree from a recognised university.
- A teaching qualification such as the Postgraduate Diploma in Education from NIE and at least ONE year of teaching experience; **OR** At least THREE years of teaching experience or other relevant working experience in education.

For international applicants, more information on the entry requirements can be found [here](#).

Period of Candidature

Full-time 1-2 years

Part-time 2-4 years

Structure

The programme comprises 30 Academic Units (AUs) and offers two options:

- Coursework with Dissertation Route

- Coursework Only Route

Note: The open elective course is to be selected from any of the courses offered in NIE's Master's degree programmes. The offer of electives is reviewed regularly to reflect developments in education and the respective fields. You are advised to take note of the prerequisites (if any) before registering.

Optional Specialisation Courses are offered subject to demand and availability of faculty expertise. Hence, not all specialisation courses are available for selection to every intake.

Testimonials

“ I liked that this programme emphasised having a good theoretical grounding together with practical application skills. This allowed me to directly apply what I have learnt in my work and to reflect on my practices as I build my professional knowledge and expertise at the same time. ”

June Tan, Singapore
Class of 2017

“ You will not see assessments the same way ever again. Be prepared to challenge your assumptions. ”

Mr Teo Soon Hock, Singapore
Class of 2013
