

Science Festival Learning At The

At The National Institute of Education Singapore

Monday
2 JUNE

2025

9 am to 5.30 pm

Only

\$120 for MOE teachers

\$480 for Non-MOE

Grab A Strand or Two and Join In!

The *Future* of Science Education

Embracing Technology, Inquiry, and an Innovative Mindset

Festival Programme

0830 Registration

0845 Breakfast

0900 **Keynote Lecture**

“Developing an Innovative Mindset in Science Education”

[50min + 10min Q&A – NIE LT 1]

1000 Concurrent Workshops (Session 1)

[Choose from One of 10 workshops]

1300 Lunch

1430 Concurrent Workshops (Session 2)

[Continue with Part 2 from Concurrent 1
or Choose One from 7 new workshops]

1730 End of Festival

scilearningfest2025**

Register by
21 May 2025

Organised by the
Natural Sciences and
Science Education
Department, NIE

Keynote
Speaker

Professor Paul Teng

Ph.D., Hon. D.Sc., FAAET, FAAPM

“The scientific principles behind the development of new technologies, be they based on physics, chemistry or biology, stem from enquiring minds, nurtured from an early age through stimulating education programmes. But ideas, concepts and discoveries remain as “twinkles in the eye” until they are translated into innovations. Cultivating an innovation mindset in schools starts by nurturing inquiry through linking real world problems with authentic learning pedagogies.”
