

BUILD PROGRAMME

The BUILD (Building University Interns for Leadership Development) programme serves to provide a structured process for students in the Double Major Programme (DMP) at NIE to serve and learn from relevant institutions, organisations, agencies and companies so as to acquire skills and develop competencies to be educational leaders.

Their learning objectives include:

1. To provide DMP students with professional immersion experiences beyond schools
2. To learn leadership and operations skills from a different industry where possible
3. To develop values and skills that promote personal growth
4. To develop attitudes conducive to effective interpersonal relationships
5. To develop skills in the application of theory in practical work situations beyond the classroom
6. To develop personal networks useful for future organisational collaborations
