

MY BUILD EXPERIENCE

Nur Syafiqah Binte Mohamed Kalib
TSP 2022 Intake
Attached to Mandai Wildlife Group

During my internship at Mandai Wildlife Group, I had the opportunity to develop a digital Malay Language Resource tailored for special educational needs students. I designed a game that incorporated animal ambassadors from the zoo to facilitate language learning, allowing me to translate theoretical knowledge into activities and enrich my understanding of the Malay Language.

Additionally, I gained valuable insights into the meticulous planning that went on behind the scenes from observing the Education Department staff during guided tours, event preparations, and workshops. Their dedication I witnessed during this experience has fueled my personal growth and serves as inspiration for applying these lessons in my future teaching.

Meenel Thangeswaran
TSP 2023 Intake
Attached to Singapore Kindness Movement

My internship at Singapore Kindness Movement (SKM) provided me with valuable insights into the work of non-profit sectors and helped me identify my strengths in adaptability and problem-solving skills through the planning and organising of large scale events such as the National Family Festival. This experience contributed to both my personal and professional growth, and I am deeply grateful for the supportive team I had at SKM.
