

SPORT SCIENCE & MANAGEMENT (SSM)

Transform Lives (SSM Alumni)

"I am honoured to lead a community of visionaries, innovators, and champions in the Sport Science & Management Alumni Association. Our shared commitment to pushing boundaries and unlocking human potential ensures our collective knowledge propels athletes and individuals to new heights and transforms the world of health, sports and fitness. We are a living testament to the transformative power of knowledge in the realm of athletics. It is not just about the equations and theories; it's about understanding the poetry in motion, the biomechanical symphony of a perfect play, and the resilience of the human spirit. Let us continue to inspire, educate, and empower the next generation."

Mark Tan
President, SSM Alumni Association 2023
