

WINTER LANGUAGE IMMERSION PROGRAMME

This French Winter Language Immersion Programme I participated in from 11-22 December has been an incredible opportunity to immerse myself in the French culture and language. I got to meet many wonderful friends from various courses at NTU and had an enjoyable time in and outside class with them. My host was extremely welcoming and went out of her way to provide me with an enjoyable and comfortable stay and delicious meals. I also found the lessons extremely engaging and fun! I would encourage anyone considering joining this programme to do so as it will be a memorable and enriching experience for you that you don't want to miss out on.

– Amrita Nair, TSP 2020 Intake

Winter Language Immersion Programme
at Ewha Womans University, South Korea

During these three weeks of the Language Immersion Programme at Ewha Womans University, in addition to learning the Korean Language, we had the opportunity to immerse ourselves in the Korean Culture through the Cultural Programmes planned. It was a great experience as the teachers and student buddies were extremely kind and helpful. This short programme provided a good platform for us to foster a sense of resilience and adaptability as we overcome language barriers and acclimatise to a new environment. Through this experience, we got to appreciate the beauty of the Korean Language and Culture. New perspectives were gained, new memories were forged, and new friendships were made.
