

SPORT SCIENCE & MANAGEMENT SS2103 SPORT COACHING: FOUNDATIONS OF COACHING

Academic Year	2019/20	Semester	2		
Course Coordinator					
Course Code	SS2103				
Course Title	Sport Coachii	Sport Coaching: Foundations of Coaching			
Pre-requisites	None required	d			
No of AUs	3				
Contact Hours	Total hours: 3	9			
	Lecture: 12				
	Laboratory: 2	7			

Course Aims

This course examines and applies practical sport coach pedagogy (learning theories and instructional methods) to the sport environment. Issues related to effective coaching of young athletes will be addressed. In addition, pedagogical knowledge and application of the principles of motor skills' learning will be covered in this course. At the end of the course, you will be able to appreciate the unique needs of coaching and be equipped with knowledge to conduct sport specific training sessions catered to youth athletes.

Intended Learning Outcomes (ILO)

By the end of the course, you should be able to:

- 1. Discuss the theoretical concepts that affect young athletes' learning and performance in sport, as well as character and values development.
- 2. Apply the theories learned during practical sessions.
- 3. Plan and execute one coaching session for a given sport, taking into consideration factors that contribute to improved performance.
- 4. Discuss the current research in coach education, coaching science and implications on sport coaching in the context of youth sport.

Course Content

The following topics will be covered:

- 1. Introduction to the Coaching Process and Role of the Coach
- 2. Planning & Sport Safety
- 3. Motivation and Coaching
- 4. Growth & Development
- 5. Teaching Values & Life Skills through Sport
- 6. Development of Skills
- 7. Physical Preparations

Sport Science & Management

- 8. Analysis of Skills
- 9. Effective Coaching and Evaluation
- 10. Mental Skills Training

Assessment (includes both continuous and summative assessment)

Component	Course ILO Tested	Related Programme LO or Graduate Attributes	Weightin g	Team/ Individual	Assessmen t rubrics
Class participation	1	A1, B1, C1, D1	10%	Individual	Appendix 1
Practical Coaching: Group assessment	3	A2, B2, B4, C1, C2, D1, D2	30%	Group	Appendix 2
Practical coaching: Peer evaluation	1, 3	A1, B2, B3, C2,	10%	Individual	Appendix 3

Graduates of the SSM programme should show:

Competence				
A1: {Understanding}	process and interpret information, evidence and methodologies related to sport science or sport management			
A2: {Self-discipline}	independently apply themselves to solve relevant problems			
A3: {Modern Tool Usage}	use technology to communicate and provide feedback on sports activities, improve sports performance, monitor and increase physical activity, provide exercise prescription, solve problems for disadvantaged			

	athletes/sportspeople, and commercialize and innovate sports products, events and services
Creativity	
B1: {Critical Thinking}	critically assess the applicability of sport science and sport management tools toward problems and in the workplace
B2: {Analytical Thinking}	critically analyse data from a multitude of sources
B3: {Interdisciplinary Thinking}	connect the subfields of sport science and sport management to tackle problems
B4: {Innovation}	be able to develop new applications or improve existing techniques
B5: {Entrepreneurship}	develop new ideas and plans for sport science, businesses and events
Communication	
C1: {Effective Communication}	present findings or ideas from sport science and sport management research logically and coherently at the appropriate level for the intended audience and in all forms of communication
C2: {Teamwork}	work in teams on projects that require sport science or sport management application, and communicate results via demonstration, verbally and in written form
Civic-Mindedness	
D1: {Professionalism}	act in a manner that respects the profession and meets the expectations of the sport science and sport management industry
D2: {Inclusiveness}	promote sport and physical activity in all individuals to bring people together and improve physical, social and psychological outcomes
Character	
E1: {Ethical behaviour}	act with integrity and in a socially responsible and ethical manner in line with societal and legal expectations in relation to collecting and analysing data of people and protecting personal data with appropriate computer security

E2: {Sportspersonship	demonstrate appropriate safety, concern and good conduct in sport situations towards other individuals	
	involved in the activity	

Formative feedback

Feedback for learning will be verbally provided during each practical session where you have the opportunity to learn instructional models and pedagogical knowledge, and apply them during the practical sessions.

Feedback will be given periodically in relation to the diary log. Generic verbal and written feedback will be provided to the class prior to the test and examination.

Throughout the course, you will have the opportunity to use recording devices to help record fellow classmates' coaching sessions for observation and analysis. During the learning process, you will receive verbal feedback and suggestions for improvement.

Learning and Teaching Approach

Approach	How does this approach support you in achieving the learning outcomes?	
Lectures	Lectures will provide information for key learning concepts and theories and support understanding of key concepts	
Practical Sessions	Practical sessions will: Give hands-on experiential learning to support key theories and information provided in class Provide tasks foryou to apply knowledge that has been taught recently to solve specific problems or context-based scenarios. Give space and time for small group activities and discussions to allow you to assimilate the content and share ideas Allow opportunity for verbal feedback from the instructor relating to application of theory to practice.	
Online learning	Time will be given for learning from online materials as a part of flip teaching approach. These materials will support key concepts covered in lectures and laboratories.

Course Policies and Student Responsibilities

(1) General

You are expected to complete all assigned pre-class readings and activities, attend all classes – lecture and laboratory - punctually and submit all scheduled assignments and take tests by due dates. You are not allowed to swap laboratory groups without express permission from the course coordinator. You are expected to take responsibility to follow up with course notes, assignments and course related announcements for sessions you have missed. You are expected to participate in all discussions and class activities unless there is a valid medical reason not to do so.

(2) Absenteeism

Absence from class without a valid reason will affect your overall course grade. Valid reasons include falling sick supported by a medical certificate and participation in NTU's approved activities supported by an excuse letter from the relevant bodies.

If you miss a lecture, you must inform the course instructor via email prior to the start of the class.

(3) Absence Due to Medical or Other Reasons

If you are sick and not able to complete a test or submit an assignment, you have to submit the original Medical Certificate (or another relevant document) to the Sport Science & Management (or Home School) administration to obtain official leave. Without this, the missed assessment component will not be counted towards the final grade. There are no make-ups allowed.

(4) Attire and safety

You are expected to participate in practical sessions. Most of these activities involve exercise. All of you are expected to wear appropriate attire for participation, obey safety rules, and take appropriate care of and return all equipment after use.

Academic Integrity

Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values.

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion and cheating. If you are uncertain of the definitions of any of these terms, you should go to the academic integrity website for more information. Consult your instructor(s) if you need any clarification about the requirements of academic integrity in the course.

Collaboration is encouraged for your work in the class and laboratories because peer-to-peer learning helps you understand the subject better and working in a team trains you to better communicate with others. Working together and exchanging ideas and experiences will help improve the quality of your assessed presentation. It is important to credit others for their contribution to your work which promotes ethical practices and academic integrity.

Appendix 3: Peer Evaluation Form for Practical Coaching (10%)

Your name _____

Write the name of each of your group members in a separate column. For each person,	
indicate the extent to which you agree with the statement on the left, using a scale of 1-5	

(1=strongly disagree; 2=disagree; 3=neutral; 4=agree; 5=strongly agree). Total the numbers in each column. The final score for each student will be an average of the scores given by all group members.

Evaluation Criteria	Group member:	Group member:	Group member:	Group member:
Attends group meetings regularly and arrives on time.				
Contributes meaningfully to group discussions.				
Completes group assignments on time.				
Prepares work in a quality manner.				
Demonstrates a cooperative and supportive attitude.				
Contributes significantly to the success of the project.				
TOTALS				

Adapted from a peer evaluation form developed at Johns Hopkins University (October, 2006)

Appendix 4: Assessment for Presentation Group Component (15%)

Criteria	1	2-3	4-5
Theory to Practice (5%)	 Little or no evidence of theory used or transferred into practice No citation or incorrect citation of theory used 	 Some evidence of theory used appropriately and put into practice Some inconsistency in citation of theory 	 Theory is clearly identified and understood; strong evidence of putting theory into practice Theory used is cited clearly
Evaluation & Reflection (5%)	 Little or no evidence of student's perspective and understanding on key issues Key issues identified lacks in depth analysis Reflection is superficial and lacks value to learning 	 Some evidence of student's perspective and understanding on key issues A convincing evaluation of key issues identified is present Reflection explore core issues and there is some evidence of impact on learning 	 Student's perspective and understanding on key issues demonstrate sophistication in terms of reflection and criticality Reflection is in depth with strong evidence that supports positive impact on learning
Recommendation s / Future Plans (5%)	Recommendation s are superficial and offers little or no impact on future plans	Some evidence of sound recommendatio n which supports future plans	Meaningful recommendation s are well thought out and offers significant impact on future plans

Appendix 5: Assessment for Group presentation individual component (5%)

Criteria	0-1	2-3	4-5
Presentation & Communication Skills	 Presentation is unclear and the flow is difficult to comprehend Presentation and materials offer little or no meaningful engagement with the audience Voice is inaudible and explanations are unclear Unable to answer questions posed or a lack of depth & understanding 	 Presentation is mostly clear and the flow is generally coherent Presentation and materials are structured and enacted with moderate opportunities for audience to be engaged Voice is audible and explanations / elaborations are comprehensible Able to answer questions with some conviction 	 Presentation is clear and the flow is coherent and logical Presentation and materials are able to engage audience in meaningful ways Voice is well projected with confidence and explanations are well elaborated and substantiated Answers questions with conviction and well-supported examples
