Biography of Prof Kerson Huang
Prof Huang is Professor Emeritus at MIT and also IAS Nanyang Professor & Senior Fellow. He is a Chinese-American theoretical physicist of eminence in the academic arena. Prof Huang also distinguishes himself as a notable poet — he is best known for his early literary works in the translation of the Rubaiyat of Omar Khayyám into Chinese classical quatrains. He is also a leading authority on Chinese culture, and he had translated I Ching into English.
