Programme Modules

Venture Creation and Team Formation

Personal discovery, technology showcase, ideating commercially viable technologies, and assessing entrepreneurship readiness. Covers **Product-Market Fit and Value Proposition using the Business Model Canvas.**

Outcome:
Evaluate new technologies using structured business templates. Accurately assess whether customers will buy —before committing capital

Venture Funding and Discovery

Develop **product pitching skills** through group work, while learning how to build and scale businesses using practical frameworks such as **investment engagement and exit strategies.**

Outcome:
Develop a strong understanding of how businesses raise capital, how investment deals are structured, and how to craft compelling pitches that successfully secure funding.

Growth Strategy, Exits and Restarts

You will pilot your business ideas with mentorship support, complemented by corporate visits and fireside chats with leaders in entrepreneurship.

Outcome:
Test business ideas under real-world mentors with corporate site visits and direct talks with successful entrepreneurs.

Capstone - Hackathon and Investor Pitch

Project refinement through **targeted mentor support, corporate visits, fireside chats and tutorials**, culminating in a hackathon and investor pitch

Outcome:
Refine a real technology project in a team setting and pitch it live to a panel of investors and industry leaders.

Unlock Your Future Roles

- Venture Capitalist
- Venture Builder / Co-Founder
- Intrapreneur
- Innovation Manager
- Commercialisation Manager
- Product Manager
- Business Development Lead
- Startup Consultant
