

Computer Engineering MPE List (Elective Focus)

For AY2021 and later Cohorts

Important Note for CE MPE:

- Students must choose to take the number of major prescribed elective (MPEs) courses based on their programme requirements from the list below
- If a student has read at least 3 courses from one area, regardless of whether the courses are read as MPEs or BDE, he will be deemed to have attained elective focus in that particular area. Students can exercise the Flexible Grading Option (FGO) for the BDE, and it will still count towards the elective focus area. *(Note: students can only take MPE as BDE after fulfilling the MPE requirements)*
- For CE students, Elective Focus (total of 9 AUs, i.e. 3 courses to qualify) attained will be reflected as "Elective Focus" in the result transcript, e.g. Elective Focus in Security. Currently, we do not offer Specialisation for CE students
- Students can be awarded Elective Focus in at most two (2) areas.
- Topics to be offered can vary depending on factors such as availability of faculty, availability of visiting staff with certain expertise, new technological trends, etc. Special Topics may also replace the listed elective courses. Note that this list is subject to change every semester.
- Semester offered is indicative only. Students should refer to the official [class schedule](#) for the latest course offering information prior to registration.
- Courses marked as "**TBC**" indicate that the semester of offering (S1/S2) has yet to be confirmed. Students are encouraged to plan with flexibility and check for updates during the course registration period.

ARTIFICIAL INTELLIGENCE					
Course Code	Course Title	AU	Offering		Pre-requisite
			S1	S2	
SC3000	Artificial Intelligence	3	√	√	SC1007 & SC2000 / SC1007 & MH2500
SC4000	Machine Learning	3	√	√	SC1004 & SC1007 & SC2000 / SC1007 & MH2500
SC4001	Neural Networks & Deep Learning	3	√		SC1004 & SC1007 / MH2802 & SC1007
SC4002	Natural Language Processing	3	√		SC2001 / MH1403
SC4003	Intelligent Agents	3		√	SC1007 & SC2000 / SC1007 & MH2500
SC4061	Computer Vision	3	√		Year 3 Standing
SC4172	Internet of Things: Tiny Machine Learning	3		√	SC2107
SECURITY					
Course Code	Course Title	AU	Offering		Pre-requisite
			S1	S2	
SC3010	Computer Security	3	√	√	SC2005
SC4010	Applied Cryptography	3	√		SC2000 or MH2500
SC4011	Security Management				TBC
SC4012	Software Security	3		√	SC2002 & SC2005
SC4014	Concepts and Techniques for Malware Analysis				TBC
SC4015	Cyber Physical System Security	3		√	SC1006
SC4016	Cyber Threat Intelligence	3	√		Year 3 Standing
SC4063	Network Security	3		√	SC2005 & SC2008
DATA SCIENCE					
Course Code	Course Title	AU	Offering		Pre-requisite
			S1	S2	
SC4020	Data Analytics and Mining	3	√		SC2001 or MH1403
SC4021	Information Retrieval	3		√	SC2001 or MH1403
SC4022	Network Science				TBC
SC4023	Big Data Management	3		√	SC2207
SC4024	Data Visualisation	3	√		SC1003 & MH2500 or SC1003 & SC2000
NETWORK					
Course Code	Course Title	AU	Offering		Pre-requisite
			S1	S2	
SC3030	Advanced Computer Networks	3	√		SC2008

SC4030	Wireless and Mobile Network	3	√		SC2008
SC4031	Internet of Things: Communications Networking	3		√	SC2008
IOT					
Course Code	Course Title	AU	Offering		Pre-requisite
			S1	S2	
SC4015	Cyber Physical System Security	3		√	SC1006
SC4031	Internet of Things: Communications & Networking	3		√	SC2008
SC4172	Internet of Things: Tiny Machine Learning	3		√	SC2107
OTHER MPEs					
Course Code	Course Title	AU	Offering		Pre-requisite
			S1	S2	
SC3020	Database System Principles	3	√		SC2207
SC3021	Data Science Fundamental	3		√	SC1005
SC3040	Advanced Software Engineering	3	√		SC2006
SC3050	Advanced Computer Architecture	3	√		SC1006
