

OG Department Stores – Mr Tay Tee Peng Distinguished Undergraduate Student Award (DUSA) CHENG Wing Yee, Biological Sciences

Project "Jurassic Juniors"

A project designed to give children from low-income families an exciting opportunity to explore science and nature through a fun and educational museum experience.

Project Highlights

- Guided museum tour led by professional educators
- Dinosaur mystery toy as a memorable souvenir
- Bucket hats for an immersive learning experience
- Refreshments and treats to enjoy during the day

Starting the day off with breakfast!

A simple chat became a moment of discovery and connection.

Guided museum tours brought the prehistoric world to life!

A Day of Dino-Mite Fun at Lee Kong Chian Natural History Museum with the young explorers!

25 children from Kukoh+ Yong-en Youth & Child Development Centre and 8 volunteers

Key Takeaways

Ignite Curiosity & Foster Learning: Explored natural world, evolution, biodiversity, and sustainability via interactive museum experience.

Engagement & Enjoyment: Provided a fun, memorable September holiday outing, promoting strong peer bonding and learning in a relaxed, social environment.

Raise Awareness of Diversity & Conservation: Encouraged children to appreciate life's diversity and instilled a sense of responsibility toward environmental stewardship.

Such opportunities can leave lasting impressions and plant seeds of curiosity for the future!
