	e-learning (NTU)																	CITI Program
	Basic Safety Training . OHS2BST01	SGSECURE Prepared Citizen Training - OHS2PCT01	Understanding Signage from SS508 - OHS2SIG01	Chemical Safety Training - OHS2CST01	Working with Ionizing Radiation - OHS2IR01	Working with Non-ionizing Radiation - OHS2NIR01	Introduction to Risk Management (Core Module) - OHS2RMC01	Risk Management for Workplace - OHS2RMW01	Risk Management for Student Activities Held Locally - OHS2RML01	Risk Management for Student Activities Held Overseas - OHS2RMO01	Campus Health & Safety: Our Responsibility	Lockout Tagout - OHS2LOT01	General Emergency Preparedness - OHS2GEP01	Donning a Disposable Respirator - OHS2DDR01	Fitting a Half Mask Respirator - OHS2HMR01	Basic Biosafety Training(OHS2BIO01)	Safe Use of Stepladder	Accident Investigation: An Introduction
All staff and students upon onboard / enrollment	C	C																
Staff or Students who are working in the laboratories	C		C	C														
Faculty Members / Principal Investigator (PI) (please also refer to the discipline-specific training requirements)	C																	
Staff and students who need to conduct risk assessments for their activities held locally							C		C									
Staff and students who need to conduct risk assessments for their activities held overseas							C			C								
Safety Representatives, Safety Committee Members							C	C										C
Persons that need to conduct / approve RA, Risk Assessment Team Member							C	C										
Faculty Members or PIs who have Biological Users & Biological Users (Staff, Students & Researchers)																C		
Faculty Members or PIs who have Chemical Users & Chemical Users (Staff, Students & Researchers)				C														
Faculty Members or PIs who have Ionising Radiation Users & Ionising Radiation Users: e.g. use of X-ray Equipment or Radioactive Materials					C													
Faculty Members or PIs who have Non-ionising Radiation Users: e.g. use of Laser & Ultrasound apparatus						C
