COURSE AIMS

This course is a one-semester, 2-credit, course for humanities students at Nanyang Technological University (NTU). This course aims to enable humanities students to carefully analyse texts and develop a compelling thesis, particularly through lens analysis: how to use a theoretical text—concepts from a variety of disciplines—as a lens to analyse and probe a primary text. It also aims to teach students how to write successful humanities essays, by becoming adept in argumentation, using evidence, clear structure, and style.

LEARNING OUTCOMES

Upon successful completion of the course, you should be able to:

1. close read texts;
2. apply a theoretical lens;
3. locate a credible and significant source;
4. summarise, quote, and paraphrase a source to develop your own argument;
5. connect texts using key terms;
6. formulate a thesis; and
7. revise your own writing by using peer and teacher feedback, as well as your own revising tools.

COURSE CONTENT

1. Close reading (claims and reasons; details)
2. What is lens analysis
3. Crafting lens analysis
4. Substantiating claims
5. Sources and arguments

6. Applying an additional source
7. Structure and outline
8. Academic clarity

STUDENT ASSESSMENT

Students will be assessed by 100% continuous assessment. The assignments will focus on the course objectives of achieving proficiency in writing academic essays and presenting arguments effectively.

Assessment

Weighting

Written assignments

60%

Students will demonstrate their mastery of skills learned in this course through 2 written assignments.

- **First Draft - 20%**

Students are expected to write a first draft of their lens analysis essay that demonstrates a good understanding of both their primary and lens texts, a clear lens application that reveals something new or more nuanced about their primary text, and a paragraph of close reading quotations to support the lens analysis claim.

- **Final Lens Analysis Essay - 40%**

Students are expected to write a final lens analysis essay that demonstrates a refinement of the earlier components based on tutor feedback and presents a clear thesis statement that threads together key ideas and terms from the primary text, lens text and additional source.

Assessment**Weighting****Academic presentations****25%**

Students should demonstrate academic presentation skills when sharing their refined lens analysis claim, and more importantly, their chosen additional source. The presentation should contain a summary and application of the source, as well as new or revised close reading of the primary text to substantiate application.

Class participation**15%**

In all tutorials, students are assessed on the frequency of participation in group discussions as well as the quality of the contributions. Tutors will also note student's level engagement in peer workshops, as well as their ability to keep up with choosing their primary text, lens text, and source(s) on the appropriate weeks.
