

INSCAPE

PEDAGOGY & TECH

Pedagogy & Tech: Welcome to the June 2026 edition of our newsletter! This month, we are putting pedagogy back in the driver's seat. While technology often dominates the conversation, our focus is entirely on how technology can actively assist and elevate your core pedagogy. We are exploring how tech acts as a powerful co-pilot not a replacement.

FACULTY DEVELOPMENT

Creating the Learner-Centred Classroom: Insights from the latest FacTEL Electives

Last May, IN-Learning hosted two FacTEL electives exploring gamification with Genially and AI-curation with NotebookLM. Faculty members discovered practical ways to design more interactive, learner-centered environments, reinforcing the vital principle that purposeful pedagogical design must always drive the technology.

PEDAGOGY SPOTLIGHT

Designing Meaningful Asynchronous Collaborative Learning Experiences using Feedback Fruits

Effective online teamwork is about more than just group work – it's about students jointly constructing knowledge. In our latest article, we highlight 5 ready-to-use Feedback Fruits templates on NTULearn UCV designed to transform passive learning into interactive, collaborative experiences (from video annotations to structured peer reviews).

Meet Your New Teaching Sidekick: The FacTEL Toolkit

Developed by IN-Learning, this centralized platform brings together all NIE-subscribed and NIE-developed teaching tools in one convenient location. Easily access familiar favorites like Mentimeter and Padlet, or explore emerging tools like Dify AI and NIE AI Workspace to build custom chatbots. Plus, unlock institution-wide access to Genially for interactive, gamified learning resources, and Vyond to rapidly create animated educational videos.

🚀 Visit the FacTEL Toolkit today to find the perfect tools to support your teaching innovation!
