GAIN ACTIVITIES

Visit @ NTU: Sports Science

An enterprise partner recently visited NTU with a keen interest in performance textiles and related areas in sports science. During the visit, the Physical Education and Sports Science academic group from the National Institute of Education (NIE) presented their cutting-edge research and showcased their advanced laboratory facilities.

TECHNOLOGY NEEDS

Seeking Upcycling Technologies for Agri-Food Side Streams to High Value Products

A technology seeker is currently seeking innovative technologies that can convert agrifood side streams into higher-value products. The ideal technology provider should be open to co-development partnerships, R&D collaborations, IP licensing, and acquisition.

Click [HERE](#) for more details.

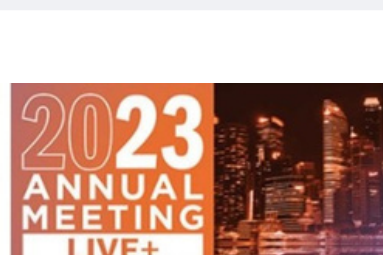

Seeking Sustainable Electronics for Use Within Portable Consumer Devices

The technology seeker, a global FMCG company, wishes to reduce the environmental impact of these devices and identify technology solutions that would facilitate the creation of "sustainable electronics" for use within their consumer devices.
